AI VISION & VALUE WORKSHOP

Explore how Copilot and Power Platform can accelerate business transformation through intelligent automation, collaborative AI, and hands-on innovation.

Build, Automate, and Scale with AI

Join us for a 1-day, hands-on workshop exploring the future of work with Microsoft Copilot and Power Platform. Blend strategic vision with real-world PoC design to unlock AI value. You may qualify for up to $400,00 in Microsoft funding - contact us to learn more!

Key Points

- ✅ **AI Foundations & Evolution:** Begin with a guided overview of AI's evolution from early automation to today's intelligent, agentic systems.

- ✅ **Ethics Security & Responsible AI:** Understand the principles of ethical AI, data privacy, and governance to ensure secure and compliant adoption.

- ✅ **Copilot in action:** Experience how Copilot Chat and Microsoft 365 Copilot enhance productivity across Teams, Outlook, Word, Excel, and more.

- ✅ **Agentic AI with Copilot Studio & Power Platform:** Learn how to design and deploy intelligent agents that automate workflows, respond to natural language, and integrate with your business systems.

- ✅ **Use Case Exploration & Solutioning:** Collaborate in guided sessions to identify high-impact scenarios and co-create agentic AI solutions tailored to your organization's goals.

Benefits & Outcomes

Strategic AI Enablement
Pinpoint where AI delivers real business value.

Security & Governance Readiness
Adopt AI responsibly with built-in safeguards.

Productivity Acceleration
Streamline work with natural language tools.

Agentic AI Innovation
Design intelligent agents to automate workflows.

Custom Roadmap & Adoption Plan
Leave with a tailored AI implementation strategy.
