

Acquire the technical knowledge required to create, publish, and distribute Power BI paginated reports with our Power BI Paginated Reports in a Day workshop

Paginated reports are designed to be printed or shared. They display all the data in a table, even if the table spans multiple pages. They're also called pixel perfect because you can control their report page layout exactly. Training/Workshop on this topic can help Organizations develop such reports at scale for operational purpose.

Why our customers prefer Paginated Report in a day:

- Learn to design report layouts, connect to data sources to retrieve report data
- Work with parameters, visualize report data & add interactive features
- Publish, consume, deliver, and embed paginated reports

Agenda:

- Power BI Report Builder
- Designing Report Layouts
- Retrieving Report Data
- Working with Parameters
- Working with Expressions
- Visualizing Report Data
- Adding Interactive Features
