LAST MILE DELIVERY

DISPATCH & MANAGEMENT

Mange your own drivers, 3PL providers,
customers with a simple and easy to
use dispatching dashboard. Gain full
insight into your deliveries, manage
exceptions optimize your
process with analytics.

DRIVER APP

Working both online & offline drivers can
manage their day from this easy to use
application. Receive real-time updates,
notifications, collect proof of delivery
Signatures, photo id - its got it all!

ROUTE OPTIMIZATION

Optimize your drivers and their delivery
routes to gain efficiency, lower your
operational costs and most
importantly keep your customers happy.

cargo.

EFFORTLESS DISPATCHING

Have all your dispatch requests automatically feed into your system. Mange deliveries, customer returns, adhoc requests, drop ship orders, 3PL providers. Everything made easy a few clicks and automate your entire process.

cargo.

EASY LOADING

Avoid mix-ups and lost packages with easy with an easy option loading for drivers. With a few clicks drivers can confirm receipt of the packages that assigned and notify customers & dispatchers they are on their way.
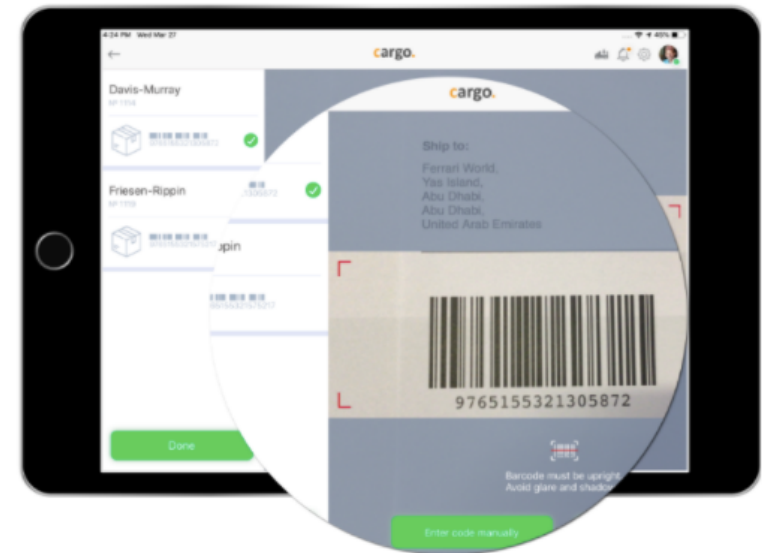

cargo.

REAL-TIME TRACKING

Need to know where your drivers are? Walking? Riding a Bike? With complete visibility via the driver app you can manage and organize you Deliveries with real-time information. Also full interactable with your Vehicle GPS tracking devices you can even consolidate sensors (i.e.. Temperature) into a single dashboard view.

cargo.

ACCOUNTABLITY WITH SCANNING

Using the built in camera on your phone or tablet our driver app enables users to quickly scan packages as they pickup or deliver. Dispatchers can track the entire life cycle of the package while drivers can make sure it always gets in the right hands.

cargo.

COD & PAYMENTS

Cash on Delivery (COD) and managing payments for deliveries can be a headache. Cargo enables full reconciliation and collection of COD payments from the moment of collection to Backend financial reconciliation.

cargo.

PROOF OF DELIVERY

Streamline your proof of delivery process with e-signatures, photo id verification, phone numbers, name. Completely customizable to meet your business requirements and completely automated and cataloged with each delivery for reference.

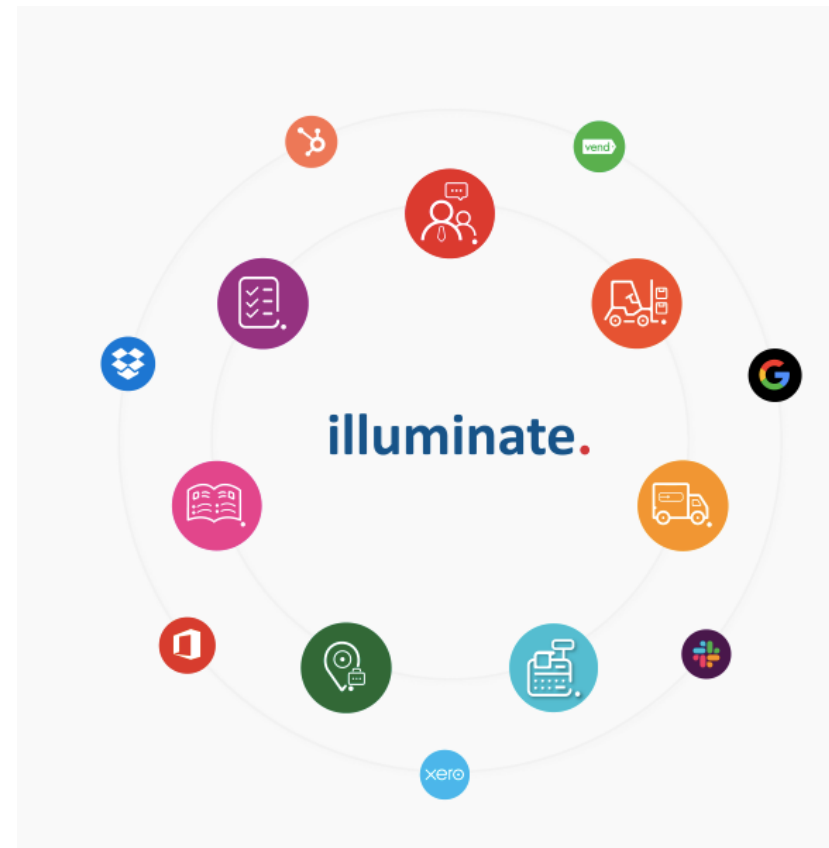

cargo.

INSIGHTS & REPORTING

With Cargo you can gain valuable insights into the delivery process and where you can optimize your drivers, routes and order processes. Real-time reports, dashboards, analytics makes sure you are always on top of it!

cargo.

APP INTEGRATION

Already pre-integrated with the Illuminate family of solutions out of the box you can get started today with a few clicks. Have your own internal system or want to connect one of your favorite apps? No problem! Check with us as we are always adding more integration as well with simple Web API's virtually any system can be connected.
