We deliver digital services that help our customers with strategic execution through proactive advisory and the implementation of innovative digital solutions:

Digital Advisory

Business development & Process optimization
Enterprise architecture consulting Cloud & Data strategy Organization & Change management
Technology & Platforms

Solution Delivery

Program & Project management
Solution design & development
Agile delivery teams
Testing, QA & Deployment

Digital Excellence

Organizational onboarding
Platform training & Enablement
Analytics & Insights
Personalization & Automation
Experience optimization

Managed Services

Proactive monitoring
Application Management
Cloud Operations Service & Support (24/7) DevOps

WELL-ARCHITECTED REVIEW ASSESSMENT

Let Immeo analyze your cloud infrastructure and your mission-critical workloads for optimized cloud operations.

Immeo's Well-Architected Review Assessment gives the business the ability to understand the value behind a well maintained, secure and optimized cloud environment.

Immeo's Well-Architected Review based on Microsoft Well-Architected Framework is used to efficiently validate your existing architecture against defined best practice.

The assessment is designed to provide clients with high-level guidance and best practices to assist them design, maintain and improve secure, scalable, reliable, cost-optimised, and operationally proficient applications in Azure.

Strategy → Assessment → Adoption → Management

Assessment includes:

- Introduction workshop
- Definition of application workloads and scope of the assessment
- Conducting the Well Architected review to assess the as-is level of maturity
- Identification of findings and recommendations
- Definition of Cloud Operating Model and service blueprint for the required change
- Definition of a Minimum Viable Cloud Landing Zone.
- Presentation of report, incl. cost for Managed Cloud Services

BUSINESS BENEFITS AND OUTCOME

Operational Excellence
Run and monitor application workloads efficiently to deliver business value and to continually improve supporting processes and procedures.

Security
Secure platform, applications and information, while delivering organizational value through risk assess-ments, threat prevention and mitigation. strategies.

Cost optimization
Avoid or eliminate unnecessary cost or inefficient use of cloud resources.

Performance efficiency
Use computing resources efficiently and cost-effectively to meet platform and application requirements, to maintain efficiency as demand for changes and technologies change.

Reliability
Build a resilient platform for applications to recover from infrastructure or service failures, efficiently acquire computing resources and reduce and mitigate disruptions.
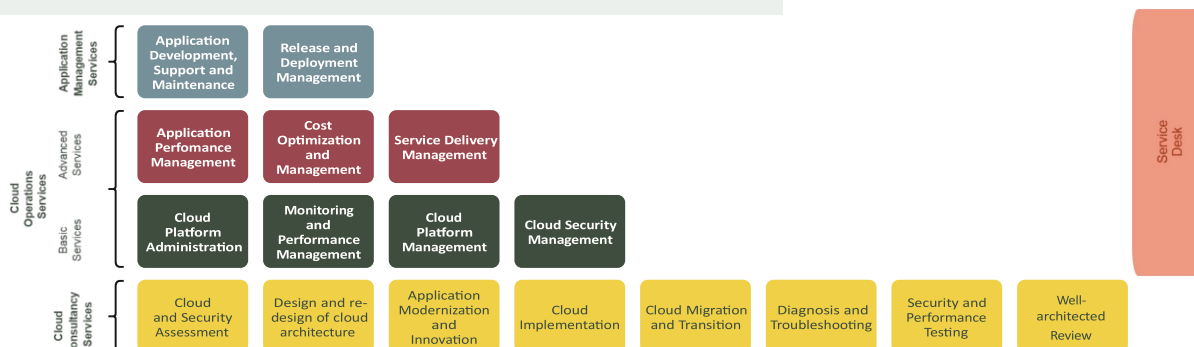

We create digital
solutions that empower
people and business

IMMEO MANAGED SERVICES
Service offerings overview

CLOUD CONSULTANCY SERVICES

Immeo provides a variety of consultancy services in order to assist the customers, no matter where they are in their cloud journey.

The **Well-Architected Review Assessment** report is based on Immeo's standardized methodology, delivering a comprehensive report defining the actionable findings and recommended guidance for key architectural pillars and how to resolve associated architectural issues.

The report will outline and recommend a service blueprint for the required change in the platform. Furthermore, the report will define and recommend a Minimum Viable Cloud Landing Zone.

The report will finally contain a description of a recommendation to a cloud operating model regarding managed services for hosting, supporting, maintaining and optimizing your application workloads and solutions on Microsoft Azure.
