

# FAST START AI IN YOUR BUSINESS

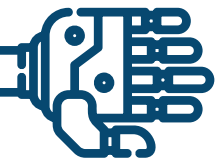

Unleash your Data Teams  
with Decision Inc.'s  
AI Launch Hub

Not sure where to start  
on your AI journey?

“Business leaders expect AI to be the differentiating technology in the next five years, especially for revenue generation and operations.”

**Gartner**

**A 4-week accelerator  
to setup and deliver  
AI in your business:**

Empower your Data Teams to scale  
and develop their AI solutions.

## TECHNOLOGY PLATFORMS

## KEY FEATURES:

- Validated Business Case with ROI
- Fully implemented Gen AI Platform
- Deploy first AI Use Case to production
- Structure training for AI and Data team

## BENEFITS OF AI LAUNCH HUB

- Structured Business Case Development process to quantify value for Use Cases
- Proven methodology to implement and run Large Language Models in the relevant Cloud Service
- Data Profiling and Metadata management process to train LLM
- Security and use optimisation to ensure model integrity
- Diverse skills team to support deployment of use case including data, cloud engineering, strategy and design
- Business and technical team training programme to develop critical in business skills

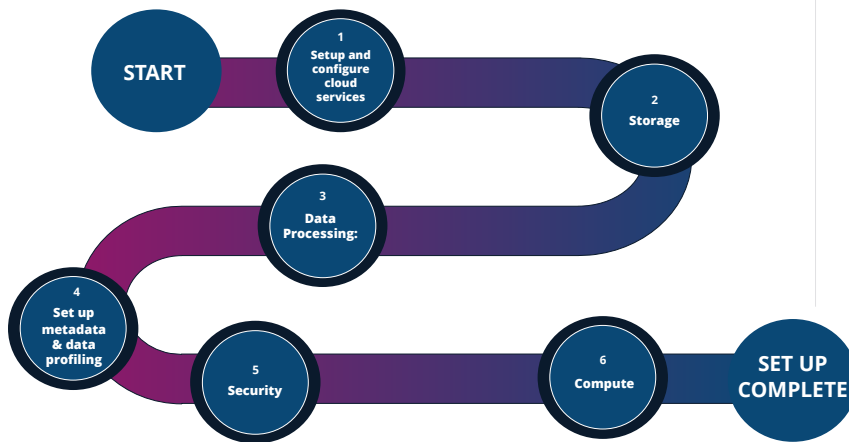

## OUR UNIQUE LAUNCH HUB APPROACH

### AI VISIONING DEFINING AND CREATING AI USE CASES TO MEASURE IMPACT

### SETTING UP THE AI PLATFORM

Our Platform Deployment Process is used to implement the Technology Platform, environment and LLM model to scale AI across the business.

1. Setup and configure cloud services
2. Storage
3. Data Processing
4. Set up metadata & data profiling
5. Security
6. Compute

## UNLEASH YOUR DATA TEAM TO SETUP AND DELIVER AI IN YOUR BUSINESS

Let us assist you with  
your AI journey

**LAUNCH TODAY**

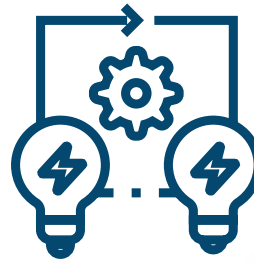

## MODEL TUNING AND FRONT-END INTERFACE PLATFORM

Our Model tuning is the process of fine-tuning the configuration settings of a machine learning model to optimize its performance.

## DEPLOY TO PRODUCTION AND TRAINING

Our production deployment and training strategy ensures that the system is accessible to end-users in an efficient and Intuitive manner, while training ensures users can utilise the full capabilities of the AI to produce accurate and reliable information in key business activities.

## TRAINING APPROACH

**FRONT END USERS**  
Providing User Training  
and Development

**DATA SCIENCE TEAM**  
Conducting Professional  
Development for the  
Data Science Team
