impact

POWER BI PRIVATE GROUP TRAINING: ONE-DAY WORKSHOP

Don't just collect data, use it to inform your business decisions by transforming it into helpful, actionable insights. Impact's Microsoft Power BI Training will teach you and your staff how to access, model, and share data. Go from making loosely-educated guesses to building data-informed plans of action for your business today with this workshop.

FEATURES AND BENEFITS

- Training can be contextualized with your own data and use-cases
- Training can occur virtually or in-person at your facility or within one of our learning centers
- Training is led by Microsoft Certified Data Analysts
- Each training session includes a hands-on lab
- Impact provides files, reports, and dashboards needed for the training

ACCESSING, MODELING, AND SHARING DATA

Private group training for Microsoft Power BI, led by certified Microsoft Data Analysts, that introduces data preparation, modeling, and visualization for reports and dashboards.

With this one-day, instructor-led Power BI Training, Impact empowers your staff to interpret raw data and present it to anyone. Our sessions cover the full lifecycle of reports and dashboards and include the option to bring your own data, ensuring topics are contextualized to the day-to-day work of your staff or the organizational requirements you have while evaluating a business intelligence platform.

AGENDA

MORNING SESSIONS

Your staff will learn how to connect, prepare, and model your data:

- Accessing Data
- Preparing Data
- Modeling Data
- Exploring Data

AFTERNOON SESSIONS

Your staff will learn how to visualize, share, and collaborate on your data with others:

- Data Visualization
- Publishing Reports
- Accessing Reports
- Collaboration

DELIVERABLES

Upon completion of the training, Impact will provide a certification to all attendees, along with files, reports, and dashboards generated throughout the sessions.
