POWER BI EMBEDDED TRAINING: ONE-DAY WORKSHOP

Gain the technical knowledge to embed Power BI content across a variety of applications in this Power BI Developer in a Day course.

PREREQUISITES

- Software development fundamentals, DIAD, or equivalent working experience

This course is designed specifically for advanced app developers, and familiarity with front-end coding is an advantage.

WHAT YOU WILL REVIEW

- Acquiring access using Azure Active Directory (Azure AD) apps and tokens
- Working with the Power BI REST API
- Embedding Power BI content in your apps
- Integrating Power BI content in your apps using the Power BI JavaScript API
- Enforcing row-level security (RLS) to ensure app users see the right data
- Choosing the right license to suit your requirements

DELIVERABLES

Upon completion of the training, Impact will provide a certification to all attendees, along with files, reports, and dashboards generated throughout the sessions.
