Power Platform: 2-Week Proof of Concept
Adopt Power Platform for a basic customer relationship scenario

IMPERIUM dynamics

This service offering enables you to pick out any customer relationship scenario that is important to you and have it built in a working proof-of-concept through our Power Platform specialist engineers.

Day 1: Kick-Off, analysis of the business scenario you would like covered.

Day 2: Design approach finalized and review of functionality to develop.

Day 3: Provisioning of the Power Platform environments and start of development.

Day 4,5,6,7,8: Development of customizations and configurations.

Day 9: Demo of solution to you, Proof-of-Concept closure, and planning of next steps.

Day 10: Production deployment and Go-Live
