

FULL FUNCTIONALITY IN DOCUMENTS AND ITEM TRACEABILITY

Sale documents

IMPOS creates receipts, invoices, returns, credit notes, shipments and sales orders

Invoicing warehouse shipments

IMPOS can register invoices from shipments created in the warehouse, allowing customers to pay in the POS

Units of measure

Use different item units of measure in sales, select the unit of measure from the favorite panel

Item tracking

Use Serial Nos. or Batch Nos. in POS sales

Return coupons

Returns can create return coupons to be used in future sales by the customer

Creating sales orders

IMPOS creates sales orders and stock pickings directly from the Sale Screen

Manual cash operations

Control expenses or manual cash operations occurring in the POS

EVERYTHING THAT YOU NEED IN YOUR POINT OF SALE

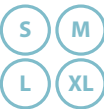

Sale prices and discounts

Use POS price lists or customer price lists according to standard Microsoft Dynamics 365 Business Central price options

Favorites panel

You can create groups of favorites and select items and units of measure from a touch screen

Size and Color

You can sell size and color items and control stocks in visual tables

Suggested Items

You can configure suggested items to appear on the sale screen to increase the average bill amount in the POS

Thermal printers

You can print receipts or other sale documents using a local thermal printer installing IM Anchor in your local machine

LOYALTY FUNCTIONALITIES WITH IM LOYALTY ADVANCED

Loyalty Cards

You can create different types of loyalty cards and define points and balance conditions

Loyalty Points

Create loyalty points for your customers, the customer will be able to use points in future sales, and you can define expiry date for points

Advanced Promotions

Define advanced promotions based on groups of items and customers. I.e. buy 3 equal of group A and get 20% discount on 2 items of group B

Gift cards

Create and charge gift cards with balance to be used in any shop

Simulated Promotions

Test your promotions in a simulation page in order to validate the desired outcome

Promotions in the Sale Screen

The seller can review active promotions in the point of sale and inform the customer of the amounts and % applied in the sale

Charge balance in loyalty cards

IMPOS allow charging balance to your customer loyalty cards from the Sales Screen
