

Incedo brAInspark: GenAI Enablement Platform

Transforming Enterprises with Disruptive Innovation, Rapid Productivity Gains & Business Process Transformation

Generative AI has immense transformative potential to revolutionize enterprises, but realizing its full impact hinges on overcoming Data barriers

- ▶ Inconsistent Accuracy of GenAI Systems
- ▶ Data Privacy and Security Concerns
- ▶ Scaling Gen AI Across Enterprise Use Cases
- ▶ High Computational Costs of Gen AI Models
- ▶ Complexity of Integration into Existing Workflows

How can Incedo brAInspark help you?

Incedo's brAInspark platform addresses these challenges by providing a robust, secure, and scalable solution. Enabling enterprise GenAI contextualization and operationalization for building business solutions to drive CX improvement and productivity enhancement.

incedo brAInspark enabled GenAI Product Suite

IntelliQA

QA transformation, across functional, UI & Data testing

Intellidoc

Document intelligence for information extraction from forms, pdfs, invoices etc.

BOT Fusion

Virtual assistants & Co-pilot to drive productivity & precision

Knowledge AI

End-to-end Data & AI enablement, powered through ontologies to drive search accuracy & precision

Incedo brAInspark Platform

Data Enablement

- ▶ Data Ingestion & Pre-processing
- ▶ Data Integration
- ▶ Data Quality

Data Storage & Ontological Representations

- ▶ Vector Databases
- ▶ Domain Ontologies
- ▶ Knowledge Graphs

GenAI Contextualization Engine

- ▶ Retrieval Augmented Generation (RAG)
- ▶ Model Fine Tuning
- ▶ Reinforcement Learning

Data Security

VPC Deployment

PII Identification & Reduction

Role Based Access Controls

Key Differentiators of Incedo brAInspark to Drive Disruptive Impact

Deployed on Cloud Platform of Choice - Platform hosted in your Cloud Platform (AWS, Azure, GCP)

Proprietary GenAI Model Hub - Model fine tuning to calibrate models to enterprise

Custom Integration for Weamless Workflows - Integration with project management tools (Jira, Git etc)

Secure GenAI Architecture - Hosted in client VPC environment, to safeguard data & models

Adaptable to future Innovation - Consistently adapts to technological advancements

Business Impact

~30%
reduction in MTTR for network troubleshooting by field engineers at a top telco firm

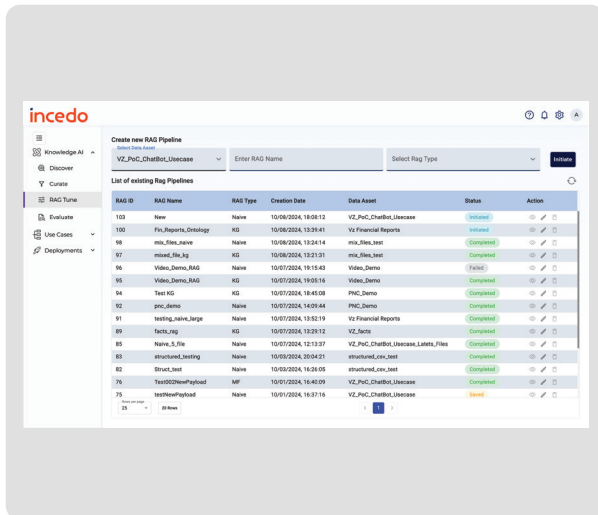

~35%
productivity Lift across the QA lifecycle for a leading Wealth Management firm

~40%
cost savings for a leading financial services client through GenAI enabled document operation

PRODUCTS ENABLED BY incedo brAInspark

Knowledge AI: GenAI Enabled Multi-modal Unstructured Data Search and Contextual Insights

Build Custom GenAI apps, Chatbots & Agents for your enterprise through Low Code/No Code Platform

Data Enablement in a matter of few mins including Ingestion, Preprocessing & Parsing, Metadata Generation, RAG development, Model fine-tuning & Evaluation

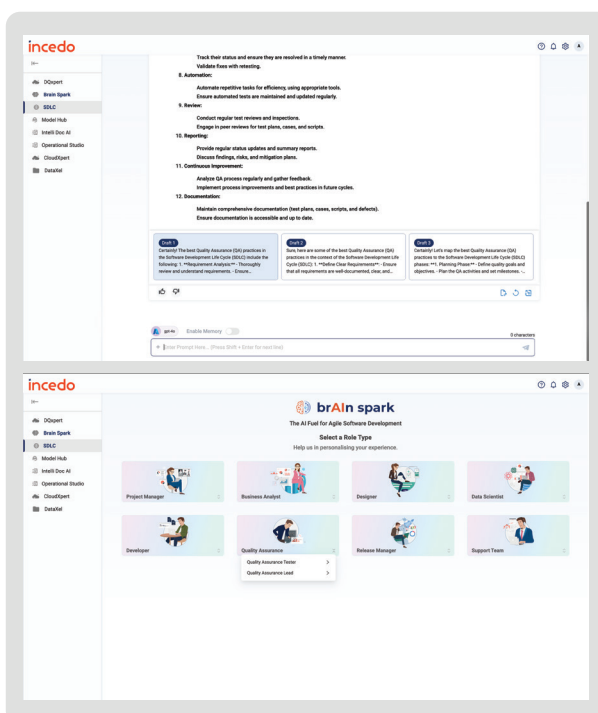

Ontology & Knowledge Graphs enabled discovery & retrieval, to maximize accuracy & minimize hallucinations for your knowledge workers

Enterprise Search Across Use Cases such as IT Ops, Engineering, HR, Call Centre

Security & Governance: PII Data Masking, Role level access control &, Cloud VPC Installations

IntelliQA: Incedo brAInspark-Enabled QA Automation Platform

AI-Enabled Test Case Creation: Automatically convert user stories into test cases, leveraging AI for contextual accuracy

GenAI-Assisted Test Script Generation: Reduce manual effort with automated script generation, enhancing efficiency

Proprietary Model Hub: Access specialized AI models fine-tuned for QA, driving accuracy in testing

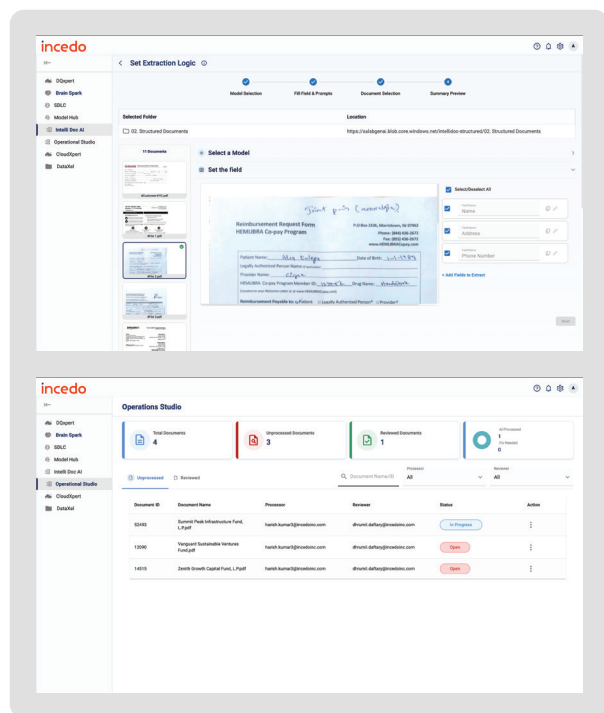

Seamless Integration: Integrate IntelliQA with project management tools like Jira, ensuring streamlined QA workflows

Secure GenAI Architecture: Benefit from secure cloud deployments and custom integration options

Productivity Gains: Experience up to a 30% increase in productivity with AI-driven QA automation

IntelliDoc: Gen AI-Powered Document Intelligence Platform

Automated Information Extraction: Extract KPIs and other essential Data from financial statements and compliance documents with precision

Intelligent Contract Review: Use Gen AI to analyze contracts, ensuring regulatory compliance and identifying key risks

Advanced-Data Reconciliation: Reconcile Data across different systems for improved accuracy and efficiency

Custom AI Models: Access curated AI models or fine-tune models to meet specific document management needs

Streamlined Integrations: Integrate with existing tools to automate and enhance document processing workflows

Productivity Gains: Achieve up to a 40% increase in productivity through AI-driven document management
