

iiQ Assets™

Asset management tools built for today's K-12.

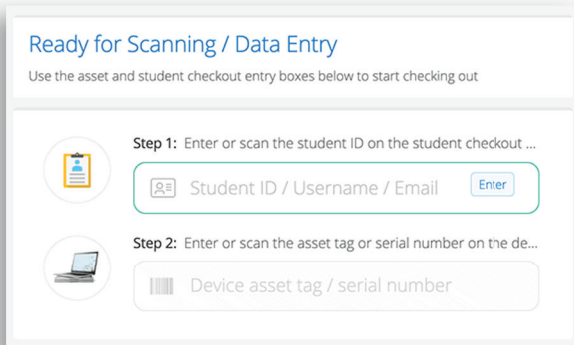

From deployment and collection to device audits and reporting, iiQ Assets helps K-12 districts manage student devices with visibility and confidence.

STUDENT DEVICE DEPLOYMENT & COLLECTION

Distribute student devices quickly and accurately.

iiQ Assets includes efficient tools that get devices into students' hands—fast. Assign devices in seconds with a connected barcode scanner, or the webcam in your laptop. Automatically track storage and location data to keep assets organized and ready for deployment.

API-DRIVEN INTEGRATIONS

Securely sync asset data to accurately manage devices.

iiQ Assets integrates with leading K-12 MDM and SIS platforms. These API-driven integrations unlock advanced functionality and provide better visibility over your entire device fleet.

INVENTORY AUDITING

Maintain better counts with reliable inventory tools.

Audit student devices without lifting a finger. Incident IQ can use login data to verify that student devices are in operation and being used. With the My Classes feature, IT teams can empower teachers to conduct classroom device audits with a workflow that's as simple as taking attendance.
