Cloud and Apps services

Our cloud and apps team helps our customers embrace the latest digital technology and embrace the cloud.

Our Cloud and Apps team is made up of developers, cloud specialists and Office 365 consultants. They hold 5 Microsoft gold competencies.

Cloud migration

Our cloud migration approach is designed around you, with a plan to move your digital estate to the cloud at a pace that suits you. Our cloud team are Citrix and Azure specialists.

Our services include:

- ▶ Cloud migration, deployment strategy and services
- ▶ SQL Server on-premises to IaaS, PaaS or Hybrid migrations
- ▶ Legacy ERP, such as NAV, GP and AX to Azure VMs
- ▶ Office 365 migrations
- ▶ Citrix deployment
- ▶ Azure migration

Office 365

We help organisations improve their productivity and make the most of the full range of Office 365 applications. We are a Microsoft gold partner for Cloud Productivity and a silver for Collaboration and Content.

- ▶ Improve communication and collaboration inside your organisation with the full suite of communication tools in Office 365, including Microsoft Teams
- ▶ Take SharePoint to the next level, improving document management and intranet sites that support your employees
- ▶ Empower citizen development using PowerApps and Flow to streamline and automate everyday business processes

Applications

Our expertise lies in taking complex legacy applications and making them work better for our customers and building new custom applications. Our services include:

- ▶ Migrating bespoke applications to the cloud
- ▶ Application modernisation
- ▶ Application virtualisation and access improvements
- ▶ Application support and maintenance

Microsoft Power Platform

One connected platform that empowers everyone to innovate

**Build web and
mobile apps fast
and
without limits**

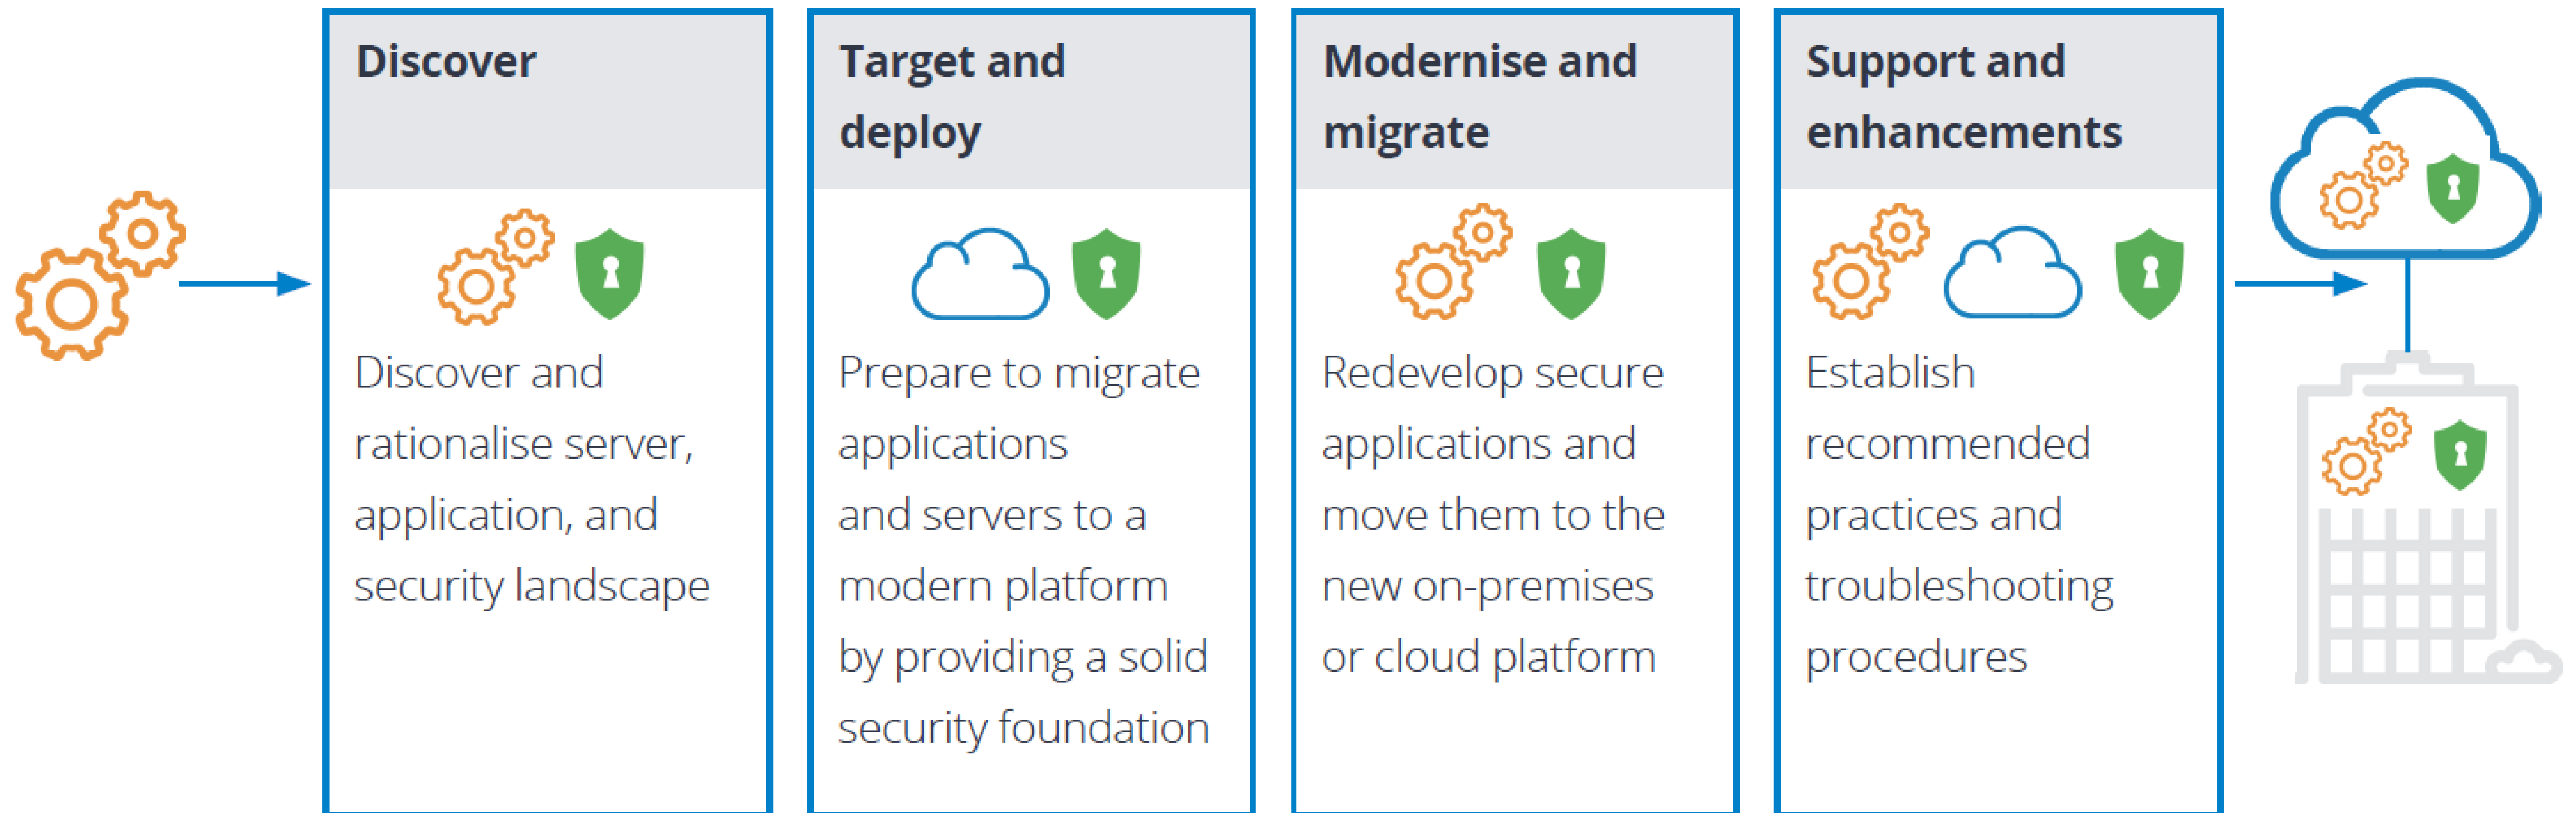

**Gain insights
from your data
regardless of
where it lives**

**Automate and
integrate
business
processes with
your
applications**

We help organisations empower their citizen developers, connect their applications and build custom applications and dashboards for their employees. All utilising the low code approach of the Power platform.
