CLOUD ADOPTION FRAMEWORK
CUSTOMER JOURNEY

The Cloud delivers fundamental technology benefits that can help your enterprise execute its business strategy: migrating to the cloud, if done right, can improve business agility, reduce costs, accelerate time to market, and enable expansion into new markets.
To do things right, no steps should be skipped, starting by defining and documenting your business strategy in a way that's both understandable to cloud technicians and to your business stakeholders.

The Cloud Adoption Framework (CAF) is a collection of documentation, implementation guidance, best practices, and tools that are proven guidance from Microsoft designed to accelerate your cloud adoption journey. Using the CAF helps to align the business and technical strategies to ensure success.

Inetum-Realdolmen fully embraces the Cloud Adoption Framework to guide you in your journey to the Cloud. Our Cloud Adoption Framework workshops focus on following CAF phases:

- **Strategy**: Define business justification and expected outcomes of adoption
  Executive mandate, cloud drivers, financial model, business criteria, technical criteria, SLA, …

- **Plan**: Align actionable adoption plans to business outcomes
  Inventorize assets, TCO, ROI, Best practices and governance, networking and security overview, define migration strategy (Lift &Shift / Application Modernization, Containerization, Azure VMWare Solution, …)

- **Ready**: Prepare the cloud environment and work on the cloud skills
  Landing zone design, skilling track

Positive digital flow

Start your journey with a good strategy
## Choose one of the following workshop packages:

3 Days
We asses your Cloud readiness based on workshops with C-level and business owners and level the path for a future migration

5 Days
During this assessment and workshop, we assess the Cloud readiness of the infrastructure, based on an assessment of the assets using the Azure Migrate Tool

10 Days
We prepare your Cloud migration by assessing the readiness and define a landing zone

STRATEGY   PLAN   READY   ADOPT

GOVERN   MANAGE
