

inFlow Agent Assistant

Copilots for Customer
Support Agents

Unified Inbox

Centralizes conversations from Web, Facebook, and WhatsApp, helping agents manage interactions seamlessly.

A close-up photograph of a woman with voluminous, curly brown hair. She is wearing a black headset with a microphone and is smiling warmly, looking slightly to her left. The background is a blurred office environment with warm lighting.

AI-Assisted Support

Packed with AI-powered features like summaries of conversations, moderation of content, sentiment analysis, and real-time translation.

A woman with long brown hair, wearing a white button-down shirt and a headset, is smiling and typing on a laptop. In the background, a man with a beard and glasses, also wearing a headset, is working on a laptop. The setting appears to be a modern office or call center with large windows and industrial-style lighting.

Speak the Customer Language

Translates conversations in real-time based on the agent's language preference, ensuring smooth communication with customers worldwide.

Security & Compliance Assured

Ensures that personally identifiable information (PII) is masked in conversations, maintaining data privacy and security compliance.
