Upgrade to Chatbot

Use GPT-powered features to quickly engage users via WhatsApp conversations.

Leader in WhatsApp

Stay ahead in the WhatsApp landscape and get early access to new features.

”

By the end of 2024, over 1 million businesses globally are expected to adopt AI chatbots on WhatsApp, driven by their growing popularity and efficiency. Adoption is projected to grow annually by 25-30%, with major sectors like retail, e-commerce, banking, and customer service leading the way. Regions with strong WhatsApp usage, such as Europe, South America, and Asia, particularly India and Brazil, will see the highest adoption rates.
