

# POWER PLATFORM CENTER OF EXCELLENCE

INFINION

## Get **Actionable Insights** with the Power Platform CoE Starter Kit

Enhances user productivity and experience by providing streamlined, efficient, and user-friendly solutions, while also empowering both users and makers to leverage the Power Platform effectively, driving innovation and operational excellence within the organization

The CoE Starter Kit is a collection of tools and templates designed to help organizations set up and manage their CoE effectively. It provides a framework for governance, best practices, and automation, enabling teams to monitor platform usage, manage resources, and support the maker community. The kit helps organizations quickly establish a robust governance structure, ensuring that Power Platform adoption is secure, efficient, and scalable

## Maximize the Value of your Power Platform Investment with Microsoft Power Platform CoE

Imagine transforming your organization with a centralized hub that drives innovation, efficiency, and governance. By centralizing the management of Power Platform tools like Power Apps, Power Automate, and Power BI, the CoE helps streamline processes, reduce costs, and foster a culture of continuous improvement. It ensures that the use of these tools is aligned with business goals, maintains high standards of security and compliance, and supports the development of solutions that deliver tangible business value.

### Overview

Define goals and expected outcomes of your CoE

### Admin

Gain insights into your Microsoft Power Platform adoption

### Govern

Establish audit and compliance processes

### Nurture

Accelerate your adoption by thriving with a community of makers

With the Power Platform CoE, you gain a strategic advantage by enabling your workforce to become citizen developers, creating solutions that drive business value. The CoE not only supports and nurtures this maker community but also mitigates risks by ensuring data security and regulatory compliance. This holistic approach to governance and innovation positions your organization to stay ahead in a competitive landscape, delivering tangible results and sustainable growth.

Want to get a CoE up and running but don't know where to start? [Contact our team](#). We'll address your goals, and discuss our time-tested implementation plan for setting up a CoE, so you can get the most value from your Power Platform investment, and do more with less.
