

Electronic Healthcare Records on Azure Built by Healthcare... for Healthcare

Infinite Overview

Infinite is a global leader in seamless digital transformation services, focusing on end-to-end cloud transformation. With a workforce of 17,000+ operating from 20+ global locations, our teams leverage a unique combination of extensive healthcare and cloud experience to the benefit of clients and their patients. Infinite's proven, patented, secure frameworks and tools help our customers accelerate their cloud journeys safely

Along with our partner OptaFi, a joint venture between Infinite and Sentara Healthcare, we provide the following core services:

- Cloud strategy and consulting.
- Industry Leading End-to-end electronic health record (EHR) deployments including strategic planning, implementation and migration planning, implementation, migration and modernization, go-live support, and on-going maintenance and operations.
- Development and management of healthcare enterprise data analytics platforms.
- Cloud HIPAA / NIST security framework build, manage and deploy.

Infinite is uniquely positioned to help clients in their cloud journey.

- 4 Successful EMR production migrations to Azure.
- 15+ years of expertise and successful track record in Healthcare infrastructure.
- Time to Value: average full production cloud migration taking less than 18 months.
- Automated deployment methodology and reference architecture, leveraging cloud-native tools such as Azure DevOps pipelines, ensures faster time to value. IP includes frameworks, tools, and accelerators to enhance automation.
- Detailed SLAs ensure lack of interruptions or reduced performance in client's IT services.
- Focus on cloud infrastructure considers the entire clinical application ecosystem.

Franciscan Health Triumphantly Completes Epic Cloud Migration with Infinite

"Completing this strategic move ensures Franciscan Health's readiness for upcoming advancements in data engineering, AI, data analytics, cybersecurity, resiliency, and scalability"

Charles Wagner

Senior Vice President of
Information Services and Chief
Information Officer

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
