

Infinite reasons to accelerate your Azure cloud journey

Managed Security Services - Sentinel

Infinite Computer Solutions Overview

Digital transformation has created myriads of opportunities for organizations of all sizes. It helps drive efficiencies and improve operations, and more importantly enables business to meet rapidly evolving client expectations and market demands. Success depends on the thoughtful integration of digital technologies into all aspects of a business' operations. That's where Infinite comes in.

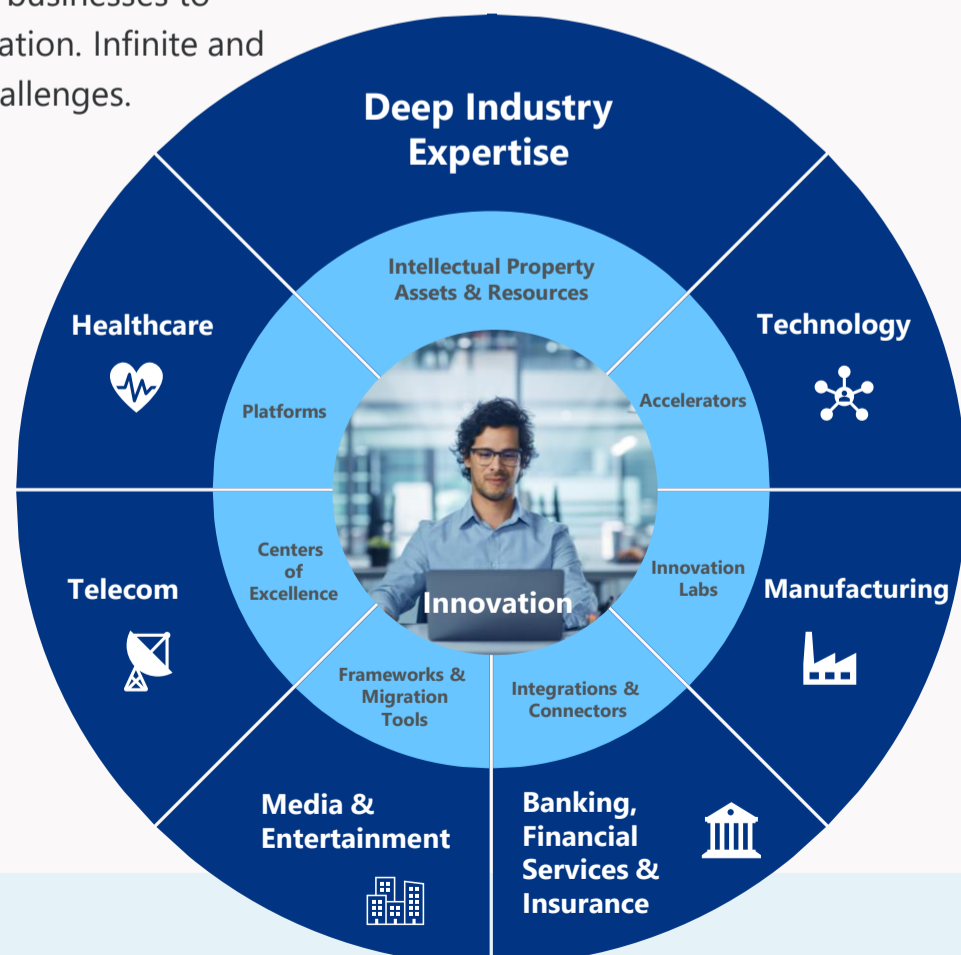

Infinite is a global leader in digital engineering and IT services, with over two decades of experience helping clients turn digital transformation into business value. We partner with customers to optimize, modernize and scale their technology landscape – combining leading technologies, innovative platforms and accelerators with practical know-how. With an industry-first mindset and laser-focus on business outcomes, we are shaping the future.

Microsoft Partnership

Our cloud solutions are enhanced by our robust partnership with Microsoft, leveraging their extensive suite of native tools along with our proprietary technologies and processes. Microsoft solutions empower businesses to leverage the cloud to improve efficiency, agility, and innovation. Infinite and Microsoft help you solve your most important business challenges.

Differentiated Client Value

- **Delivery at scale**, with more than 18,000 employees
- **Proven track record**, with more than 400 enterprise clients
- **Global support** with 22 offices worldwide
- Requirements adherence of **>99%**
- **Demonstrated quality excellence** with CMMI V2.0 Maturity Level 5 for Development and Services
- **Recognized industry leader** with more than 20 analyst awards from ISG, Avasant, Everest Group, and others

Managed Security Services using Sentinel

Infinite's Managed Security Solution delivers proactive, expert threat detection, visibility, hunting and response through the advanced capabilities of Azure Sentinel for businesses that have enterprise assets in Azure, on-premises or in other clouds.

Business Challenges

- ◆ Unified platform
- ◆ Security data overload
- ◆ Timely threat detection
- ◆ Automated incident response
- ◆ Minimize false positives
- ◆ Visibility in hybrid environments
- ◆ Contextualized threat intelligence
- ◆ Scalability and cloud adaptability

Sentinel: Transformative Benefits

Unique User Experience

Unique user experience combines seamless integration with the Microsoft ecosystem, intuitive visualization tools, automation capabilities, and collaboration features to empower security teams to detect, investigate, and respond to threats effectively.

Advanced Threat Detection

Leverages machine learning, AI, and behavioral analytics to detect sophisticated threats and anomalies, enhancing the organization's ability to identify and mitigate security risks.

Cost-Effective Solutions

Utilizes a consumption-based pricing model, allowing organizations to pay only for the resources they use, optimizing costs and avoiding upfront investment in hardware or software licenses.

Flexibility and Customization

Scales dynamically to accommodate growing data volumes and evolving security needs, adapting to the organization's changing requirements and infrastructure.

Advanced Automated Incident Response

Automates response actions through playbooks, enabling rapid and consistent incident response while reducing manual effort and minimizing the impact of security incidents.

Comprehensive Support and Services

24/7 Security Operations Center (SOC), providing continuous monitoring, detection, and response to security incidents. This round-the-clock coverage ensures access to expert security analysts who can rapidly investigate and mitigate threats as they occur.

The Infinite Difference

Unparalleled Expertise

- Our team of seasoned security consultants brings decades of collective experience. We've battled the most sophisticated threats, fine-tuned our skills, and earned industry-recognized certifications.
- From threat modeling to incident response, we've seen it all. Our battle scars are our badges of honor.

Comprehensive Coverage

- End-to-End Security: We don't stop at assessments. We cover the entire security lifecycle—from risk assessments to proactive threat hunting and real-time monitoring.
- 24x7 SOC Operations: Our Security Operations Center never sleeps. We're the vigilant guardians of your digital fortress, detecting and neutralizing threats before they escalate.

Sentinel Mastery

- Sentinel Whisperers: We've mastered Microsoft Sentinel—the cloud-native SIEM that empowers us to correlate, analyze, and act on security events.
- Custom Playbooks: Our experts craft custom playbooks tailored to your environment. We orchestrate automated responses, ensuring swift action when threats knock.

Threat Intelligence Beyond the Ordinary

- Custom Threat Indicators: We don't settle for off-the-shelf threat feeds. Our consultants create bespoke threat indicators specific to your organization.
- Proactive Threat Hunting: We're not content with waiting for alerts. Our hunters prowl the digital wilderness, seeking hidden adversaries.

Service Excellence Backed by SLAs

- Rapid Response: Our Service Level Agreements guarantee lightning-fast response times. When seconds matter, we're already on the case.
- Transparent Commitments: We back our promises with clear commitments. You'll know exactly what to expect from us.

Optimization & Efficiency

- Alert Fatigue No More: We fine-tune alerting rules, minimizing false positives. Your team won't drown in noise.
- Continuous Improvement: We audit our service components regularly, ensuring optimal performance.
