# SIEM/SOAR on Azure Sentinel: 6-Week Implementation

**Price – 17,000 USD**

**Achieve enterprise-level security with a two-in-one cloud-based solution to cover most of your needs on a single platform.**

Infopulse, as a Microsoft partner with Azure Expert MSP and Gold Security statuses, can help you adopt Azure Sentinel with maximum benefit. Our specialists have experience with multiple security projects across industries and are capable of adjusting the solution to specific business needs.

Azure Sentinel implementation will show you the power of a cloud-based SIEM/SOAR solution and provide you with advanced tools for alert detection, threat visibility, proactive hunting, and threat response.

## AGENDA INCLUDES THE FOLLOWING KEY STEPS:

- Running a security workshop to provide an overview of Azure Sentinel capabilities and understand the company's business objectives.
- Conducting a comprehensive assessment to define the state of the current security setup and choose the most suitable implementation scenario.
- Deploying a pilot SIEM/SOAR project.
- Setting up analytic use cases to validate Azure Sentinel capabilities.
- Configuring security automation and orchestration rules to increase systems' efficiency.
- Enabling integration with Power BI for intelligent report generation.
- Reporting on results.

## DELIVERABLES:

- Comprehensive security workshop.
- End-to-end security assessment with recommendations for improvement.
- Deployed and setup Azure Sentinel solution.
- Configured reporting for SIEM/SOAR.
- Knowledge transfer.

**Note: the estimated price does not include Azure and Microsoft 365 licenses.**

Our SIEM/SOAR on Azure Sentinel: 6-Week Implementation is available globally.
