ABOUT US

Informatica EDP was founded in 1983 and has always been dedicated to developing innovative software to assist businesses.

Our reality is continuously growing, thanks in part to our customers. We enjoy engaging with them, sharing knowledge, listening to their requests, and customizing software based on their needs.

Our technicians directly develop the software, allowing us to identify **needs**, quickly find **solutions**, and provide always available and **competent assistance**.

This is why **Informatica EDP** is currently among the **leading Italian companies for specific maintenance management software** and has over 2000 customers throughout Italy.
