Infosys®
Navigate your next

Challenges

- Business Growth – Business is growing but systems can't keep up
- Disconnected Systems & Reporting Limitations
- Sales and Customer experience are suffering
- Accounting takes longer
- Low customer retention
- Organization expansion and scalability issues
- Inventory Inaccuracy
- Data Redundancy
- Outdated Legacy Systems without regular updates compromising security feature

Ideal Solution

- Need for a unified integrated business process solution to automatically pull systems and processes together to manage Financials, Supply Chain, Production Order planning, Inventory Management, Projects and Service Order Management.

- Integration capabilities to connect with 3rd party applications payroll, banking, CRM, or industry specific systems, Tailor the software as per industry needs and extend the solution with industry-specific apps

Desired Outcomes

- Enhanced Financial tracking and managing budgets and funds smoothly
- Simplified Inventory Management (Tracking & Tracing)
- Improved productivity with embedded Microsoft 365 cloud stack

- Faster reporting, cycle times, and financial closes
- Role-based workspaces and workflow guidance
- Real-time data visualization & Built-in business intelligence.
