Infosys®
Navigate your next

Challenges

- Need to blend requirements of sustainability with day-to-day business and operations
- Need to define Sustainability journey and roadmap
- Need for solutions to scale up sustainability journey through automation
- Need to ensure successful engagement in the long run

Ideal Solution

- Collaborative workshops to build/ design sustainability strategy
- Access to Industry standards, Best Practices and Thought Leadership
- End to end structured approach
- Reusable resources and templates
- Reusable library of KPIs
- Monitor outcomes that help in course correction

Desired Outcomes

- Identify the potential areas, materiality focus, goals, pain points
- Align KPIs with Business and Service lines
- Prioritize, Design & Contextualize to kick start the implementation
- Release of solution Testing – Training - Deployment & Go Live
