

**BUILDING A SECURE, COST-EFFICIENT, AND SCALABLE WINDOWS 10/11 EXPERIENCE  
INFOSYS SERVICE OFFERINGS FOR WINDOWS 365 / Azure Cloud PC**

Today’s users want technology that is familiar, easy to use, and always available so they can work and create fluidly across devices and locations. For businesses of all sizes, Windows 365 / Azure Cloud PC delivers the familiarity and simplicity of a PC with the power and security of the cloud. It provides end users with a familiar Windows 10 / 11 desktop experience accessible from supported, internet-enabled devices, providing them the flexibility to maintain their productivity from anywhere, at any time.

**Windows 365 has the capabilities you need to meet your IT challenges**

Security and Compliance	Running centrally in the cloud to keep data safe
Flexible workstyles	Scaling performance for remote and hybrid work
BYOPC	Simplifying management and access to company resources
Business continuity	Provisioning quickly to maintain operations
Vendors and contractors	Onboarding and offboarding resources securely
Mergers and acquisitions	Providing seamless access to new team members

**HYBRID WORLD OF WORK - WINDOWS 365 / Azure CLOUD PC**

Windows 365 / Azure Cloud PC is a SaaS solution that combines the power and security of the cloud with the versatility and simplicity of the PC. Windows 365 / Azure Cloud PC fuses the scalability and security of the cloud and the familiarity of a PC into one seamless experience.

	<b>Streamed across devices</b>	<b>Simple</b>		<b>Enable flexibility for hybrid work</b> Empower employees with personalized Enterprise / Azure Cloud PCs and a highly secure Windows experience anywhere they work, even on personal devices.
	<b>Always ready and updated</b>			<b>Simplify management</b> Administer Windows 365 Enterprise / Azure Cloud PCs in Microsoft Endpoint Manager alongside the rest of your estate or access through <a href="https://windows365.microsoft.com">windows365.microsoft.com</a> .
	<b>Personal and familiar</b>			<b>Customize to meet your needs</b> Get a complete cloud-based service with flexible purchasing options and predictable per-user monthly pricing
	<b>Scalable and resilient</b>	<b>Secure</b>		<b>Rely on the Microsoft cloud</b> Deliver a reliable, scalable, and more secure solution.
	<b>Predictable costs</b>			<b>Ensure business continuity</b> Improve organizational strength and versatility with Windows 365 Enterprise by streaming your integrated Windows experience from the cloud to any device
	<b>Simple to buy, deploy, and manage</b>	<b>Powerful</b>		<b>Scale as needed</b> Meet the needs of your evolving workforce with a wide range of easy-to-configure computing options.
				<b>Easily deploy and manage</b> Administer and help secure all your endpoints, physical and virtual, in a unified console with Microsoft Endpoint Manager.
				<b>Protect your data</b> Mitigate risk and leaks by centralizing data and access in the cloud, not on devices.
				<b>Increase security and compliance</b> Meet industry-specific requirements with centralized, cloud-based operations and security controls that work seamlessly with leading security, identity, and compliance solutions from Microsoft

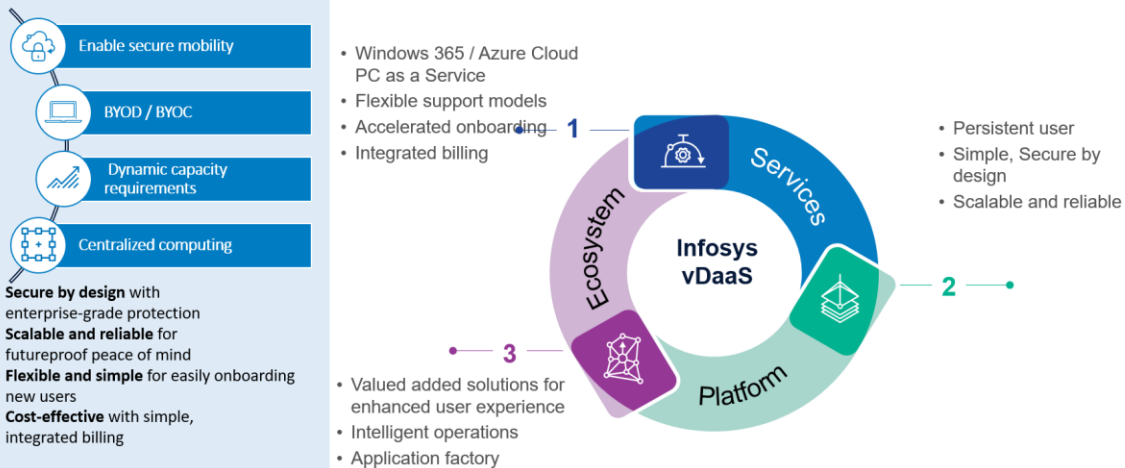

## VIRTUAL DESKTOP AS A SERVICE LEVERAGING WINDOWS 365 / AZURE CLOUD PC

We offer an all-inclusive, fully managed Virtual Desktop as a service by leveraging Windows 365 / Azure Cloud PC for our customers. Windows 365 / Azure Cloud PC takes the operating system to the Microsoft cloud, securely streaming your Windows experience – including all your apps, data, and settings – to any device. This approach creates a new hybrid personal computing category: the Azure Cloud PC
