BUILDING, NURTURING THE WORKPLACE OF THE FUTURE

The change that digitization has brought into our lives means that organizations must now deal with the challenge of a world of work that must operate in a context that has radically shifted. Workforce experience journeys, people structures, performance management and work analytics must all be actively redefined as enterprises race to transform their workplace into high-productivity, high-efficiency hubs for collaborating teams.

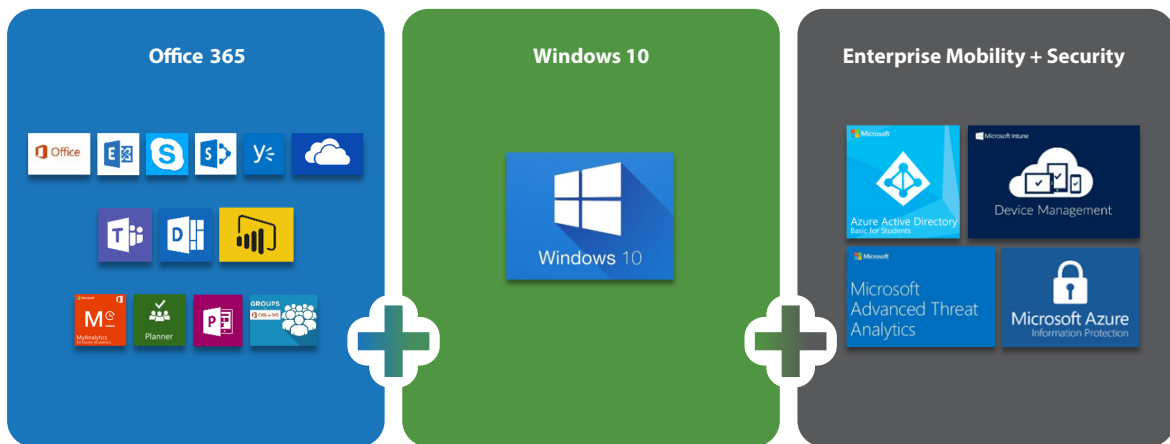

With Microsoft 365 - the best of Office 365, Windows 10 and mobility+security - at the core, we'll accelerate the transformation of your enterprise into a more productive workplace. We'll systematically help your network of teams work with intelligence and efficiency to create more value.

MICROSOFT 365 FOR THE CORE OF YOUR WORKPLACE: A COMPLETE, INTELLIGENT SOLUTION THAT EMPOWERS EVERYONE TO BE CREATIVE AND WORK TOGETHER, SECURELY.

ENVISION-ENABLE-ENHANCE...

...YOUR WORKPLACE TRANSFORMATION

Envision: Strategy and advisory services to envision the digital workplace of the future

We'll help you find the right problems to solve to create your high-productivity workplace that catalyzes great workforce experiences, inspires innovation and supports meaningful collaboration. We take the Design Thinking approach to arrive at the digital strategy that will deliver most value for you and then leverage our transformation blueprints to guide strategy execution. We understand that every business is unique and that has led us to build industry-specific collaboration models. We assess your current assets and investments, unified communication and collaboration, productivity, security and compliance needs to arrive at a roadmap best suited for your enterprise.

Enable: Implementation and migration services to enable and accelerate the transformation

We systematically accelerate the transformation of your enterprise into a more productive workplace. We bring in automation to enable the migration of users, sites and content to cloud-based Office 365, roll out Windows 10 and manage the BYOD wave, while ensuring security for your mobile workforce by leveraging Microsoft's enterprise mobility and security solutions.

Infosys Collaboration Workbench brings the power of automation to help you quickly iterate, prototype and realize value from your investments in Office 365. Infosys Collaboration Workbench:

- Accelerates go-lives with pre-defined templates and automation scripts, reducing process definition and deployment efforts by 35%
- Helps address enterprise demands related to ideation portals, knowledge management, and policy repositories faster. The application catalogue - a repository of feature-rich, functional, reusable and context-aware applications - play a big role here. These apps are plug and play conveniences that bring down configuration time by up to 60%. Chatbots integrated with these apps make the user experience immersive
- Manages apps and their interactions seamlessly. Personalization of the collaboration portals and experience, increases user adoption by around 40%

Enhance: Managed services to enhance workplace experience on a collaboration continuum

Workplace technologies are evolving fast, demanding not only service management of your digital workplace environment but also governance, change management, training and enablement services to ensure you leverage new features and services effectively. We offer value-added services through our analytics dashboard that reports user adoption and collaboration effectiveness. As a Cloud Service Provider (CSP) of Microsoft, we also offer services through the IT-as-a-Service model packaging software subscriptions with integrated support and user-based pricing.

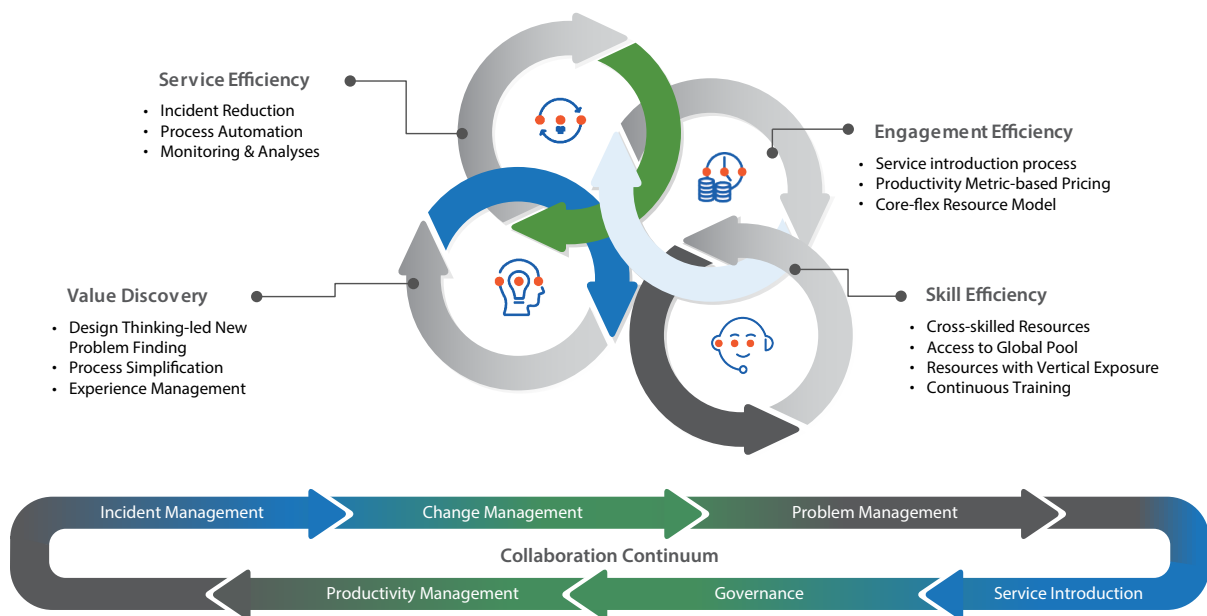

In addition, we use Infosys NIA, our Artificial Intelligence platform to free up people effort from repetitive business process management to solve higher-value customer problems.

ALWAYS-ON APPROACH TO UNLOCKING VALUE

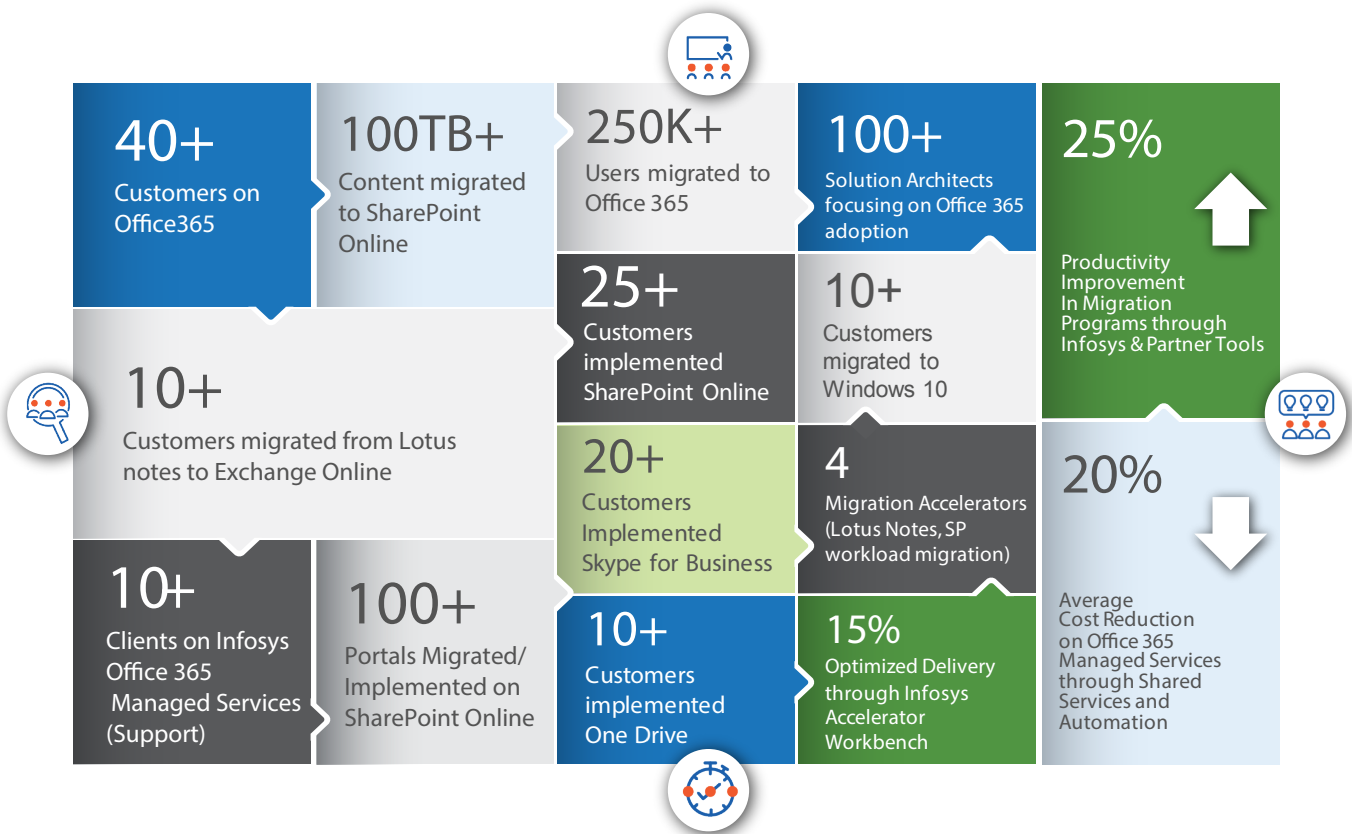

Managing a workplace transformation journey requires deep understanding of organization constructs, meticulous action planning and managing efficient operations. We help you drive an always-on approach to unlocking value from your transformation by dedicating expert resources to drive this agenda by leveraging investments you have already made in people, processes and technology.
