Infracore Elevate AI™ Microsoft 365 Copilot Enablement & Adoption Services

UNLOCK THE POWER OF COPILOT IN YOUR ORGANIZATION

Microsoft Copilot is transforming the way organizations work—enhancing productivity, streamlining decision-making, and enabling next-gen collaboration across Microsoft 365. But successful Copilot adoption requires more than just a license. It demands strategy, readiness, and intentional rollout.

Infracore Elevate AI™ is a modular set of services designed to help organizations navigate the full Copilot journey—from education to secure adoption. Whether you're just exploring AI or preparing to scale it across departments, Infracore's Microsoft 365 Copilot Enablement and Adoption services help you get there with confidence.

WHY WORK WITH INFRACORE?

1

Clarity & Vision

Executive-level understanding of Microsoft Copilot and AI use cases

2

Readiness Validation

Technical and cultural assessment for Copilot deployment success

3

Security & Compliance Confidence

Proactive review of M365 data access, governance, and oversharing

4

Fast-Track Adoption

Guided enablement of 10–20 pilot users including champions and training

5

Strategic Roadmap

Clear, actionable plan for organization-wide Copilot rollout

AVAILABLE SERVICES

We meet you where you are and can build a customized Copilot Enablement and Adoption journey tailored to your needs. Key components include:

Introduction to Copilot Workshop	Readiness Assessment	Data Security Engagement	Adoption & Enablement Support	Actionable Insights & Roadmap
Executive education to demystify Copilot Chat, M365 Copilot & Agentic AI	Review of licensing, security, identity, and organizational readiness	Identification of risks tied to oversharing, labeling, and permissions	Deployment guidance, prompt engineering training, and user onboarding	Strategic recommendations tailored to your Microsoft 365 environment

OUR PROCESS

1
Kickoff & Discovery
Define goals, users, and readiness indicators for Copilot success

2
Environment Review
Evaluate licensing, identity, data, and M365 tenant configuration

3
Security & Governance Analysis
Assess oversharing, access control, and labeling risks

4
Workshop & Education Delivery
Deliver Copilot briefings, training, and Q&A with leadership

5
Pilot Deployment & Roadmap
Support a group of 10–20 users and provide scalable next steps

TIMELINE

2-8 WEEKS

Depending on scope and selected service modules

**Don't just turn on Copilot —
turn it into a competitive advantage.
Contact us to plan your Copilot strategy,
secure your environment, and accelerate user
adoption today.**
