INFRACORE

Infracore Protect MSA™
Microsoft 365 Security Assessment

PROTECT YOUR ORGANIZATION

Cyber threats have become the top business risk for executives. While Microsoft 365 enables your organization's productivity and collaboration, its complex configurations and default security settings can leave you vulnerable to data breaches, phishing attacks, and unauthorized access.

Our **Microsoft 365 Security Assessment**, aligned with the industry-leading **Center for Internet Security (CIS) Benchmark**, provides a comprehensive evaluation of your organization's Microsoft 365 tenant security posture. We help you mitigate risks, protect your data, and optimize your Microsoft 365 environment to prioritize security AND performance.

Available as a stand-alone offer or as part of our managed Microsoft 365 service.

WHAT YOU GAIN

1

Security Posture Visibility

Gain clear visibility and a deep understanding of your organization's Microsoft 365 based security risks.

2

Quick Wins

Access a prioritized list of "quick wins" that significantly boost your security with minimal disruption to users.

3

Tailored Recommendations

Receive tailored recommendations for effective risk mitigation and remediation strategies.

4

Optimized License Spend

Unlock the full value of your current Microsoft 365 licensing, including recommendations for further security upgrades.

5

Access to Experts

Benefit from a personalized consultation with a certified Microsoft 365 expert to review the customized report, and a Q&A session.

WHAT'S INCLUDED IN THE REPORT

Executive summary with an overall security score, providing a clear snapshot of your risk level.

Expert insights explaining the relevance and impact of each CIS benchmark control on your organization's security posture.

Comprehensive list of benchmark controls, with clear pass, fail, or N/A status for each.

Detailed breakdown of licensing options needed to implement recommended security controls, so you can make informed decisions.

OUR PROCESS

1

Initial Meeting & Credentialing

Consultation to understand your organization's needs and establish secure access to your Microsoft 365 tenant.

2

Comprehensive Tenant Assessment

Thorough evaluation of your Microsoft 365 environment and identification of key areas of risk and improvement.

3

Insightful Report Generation

Compilation of detailed findings, that provide an executive-level overview of your security posture.

4

Strategic Report & Recommendations Delivery

Presentation of tailored recommendations to enhance security, optimize licensing and mitigate risk.

5

Next Steps

Deliver our recommendations to your team or use Infracore resources for remediation.

TIMELINE

4 WEEKS

From date of access.
