WHY INKEY

In-time, intelligent and innovative solutions with high standard of quality

▶ We understand your requirements.	▶ We believe in Proof of Concept.
▶ We value your expectations, time and money. No last moment surprises.	▶ Transparency- open collaboration and communication and full access to project status updates is what we maintain.
▶ Supportive and responsive - we adjust our teams to meet your project timeline and specifications.	▶ We are always by your side - be it a demo or a bug fix.

Flexible Business Model

Offshore Development Centre (ODC)

A dedicated development centre, which is an extension of the customer's software engineering facility. The customer pays fixed monthly rate for the team.

Fixed Price Model

The customer pays a pre-negotiated fixed price for the complete project which in turn is linked to well-defined deliverables. For any change in SOW, a predefined fixed hourly rate agreed at proposal is paid. This model is best used when the scope of work is clear.

Time & Material Model

We work hand-in-hand with our customer for end-to-end execution of the project. The customer pays a fixed hourly rate. At times, once the scope is frozen, this model gets converted to Fixed Price Model.

Hybrid Model

A major portion of the project is on a Fixed Price basis & at the same time resources are deployed on a Time & Material Pricing basis. Adopting such a model enables the client to maximize their budgets without compromising any aspect of the project itself.

Our Strengths

| 600+ Projects	350+ Clients	30+ Countries We Served	25+ Industries Covered	180+ Men year's Experience	75+ Team	20+ Certified Developers
