pranay@exposim.io

# Current pain points of event organizers

## Physical Event Pain Points

### Budget and overspending

Sticking to a budget can be tough with high cost of venue, food and travel.

### Data collection and analysis

Tracking attendee data, feedback, and engagement metrics is difficult.

### Limited attendance

Physical events can restrict outreach and impact potential, hindering the event's overall success.

### No good hybrid solution

There is no single platform that provides unified hybrid solution.

## Virtual Event Pain Points

### Networking Difficulties

In virtual settings, networking may feel impersonal, hindering organic interactions and relationship-building compared to physical events.

### Engagement Challenges

Engaging virtual attendees can be tricky with shorter attention spans

### Monetization Constraints

Revenue generation in virtual events can be challenging without physical ticket sales or fully engaged sponsors.

# World is recognizing that the future of events and experiences is hybrid & metaverse.

## Advantages of hybrid events over physical:

- ◆ **Better Output:** Comprehensive data for decision-making, ROI tracking and post event follow-ups.
- ◆ **Lower Cost:** Significantly reduced expenses upto 80%, including travel and venue costs.
- ◆ **Richer Engagement:** Engage & network with attendees & speakers across physical & virtual venues.
- ◆ **More Attendance:** Hybrid events sees more attendance than physical events.

# About Vibo

Vibo is a DIY (Do It Yourself) hybrid experience platform that enables organizations to create, manage, promote, and host immersive 2D and 3D experiences across physical, virtual, and metaverse venues.

Vibo's user-friendly interface and cutting-edge technology allows creation of unforgettable experiences for conferences, meetings, trade shows, & exhibitions, with better impact and higher ROI.
