

Grounded in **your business data**, Microsoft 365 **Copilot** is designed to help organizations **unleash creativity**, **unlock productivity**, and **level up skills**. With our Microsoft 365 Copilot Workshop, customers will work through various demos on Copilot in action, relevant **user scenarios challenges** and pain points to identify top prioritized scenarios for their workforce.

A proven process to cover your unique needs!

- 
- ✓ Uncover key challenges and opportunities
 - ✓ Get guidance on key user scenarios to focus on
 - ✓ Participate in the “Art of the Possible” workshop, to learn about:
 - The AI-powered organization
 - Responsible AI
 - Microsoft 365 Copilot overview and personas
 - ✓ Get an overall plan for pilot of Microsoft 365 Copilot, next steps and identified risks

Workshop framework

Assess

The Access phase introduces you to the workshop, the technical requirements for Microsoft 365 Copilot, the steps to take to become AI ready, and builds the Art of the possible phase.

Art of the Possible

The “Art of the Possible” for Microsoft 365 Copilot is a combination of presentations and demos that will educate and excite your organization on how to transform the employee experience with artificial intelligence integrated into Microsoft 365.

Build the Plan

Following the “Art of the Possible” we help you define and prioritize top scenarios to focus on and work on developing a solution plan. At the end you will receive a report and recommendations for next steps including a timeline to develop and implement the solution.

What you can expect:

- An introduction to Microsoft 365 Copilot, one of the **most powerful productivity tools**
- A **prioritized list of business scenarios** that can be addressed by deploying Microsoft 365 Copilot
- **Recommended preparation** in terms of skills and best practices
- A **roadmap** outlining potential workstreams and dependencies with **clear next steps**
