

Innovative-e

Application Lifecycle Management

Our comprehensive Application Life Cycle Management services are designed to help businesses like yours streamline their software development processes and achieve their goals faster and more efficiently using Microsoft technology.

Our services include:

Application development: Our team of experienced developers can help you design, develop, and deploy custom applications that meet your unique business needs using Microsoft Power Platform, .NET, and other Microsoft tools.

Testing and quality assurance: We help you ensure the quality of your applications through comprehensive testing and quality assurance services using Microsoft Azure DevOps and other testing tools.

Continuous integration and deployment: We help you automate your software delivery process through continuous integration and deployment services using Microsoft Azure DevOps and other deployment tools.

Maintenance and support: We provide ongoing maintenance and support to ensure the reliability and stability of your applications using Microsoft Azure and other cloud-based tools.

At Innovative-e, we are passionate about helping our clients achieve their goals and sustain their success with Microsoft technologies. As a named Finalist in the 2022 Microsoft Partner of the year awards for Project & Portfolio Management we have a proven track record of delivering results for businesses of all sizes and industries.
