The Data Manufacturers Need: Anywhere and Anytime!

With the ever-growing complexity of the economy and moves toward Lean operations to keep profits up, keeping up with inventory, production, and reporting can be challenging. That's why you need a modern, cloud-based ERP solution that helps you stay on track from top to bottom.

CHALLENGES

You're seeing increased competition, a push toward remote collaboration, and an accelerated pace of technological change. These factors are pushing you to decrease overhead, eliminate waste, and maximize production.

IDEAL SOLUTION

You need a single source of truth for your business's information that is flexible enough to meet any challenge but stable enough to keep your production moving no matter what.

DESIRED OUTCOMES

Upgrading to Dynamics 365 Business Central from Microsoft with help from Innovia's industry-leading consultants can help you identify where problems lie so you can address them proactively.

Innovia Consulting

Migrate Dynamics NAV to Business Central

Innovia is a Partner You Can Trust. We have helped businesses just like yours move to the modern, full-featured Dynamics 365 Business Central.

Planning Engagement

We take the time to get to know your existing system and processes. Our consultants visit you on-site to walk through everything you have, what you don't have but want, and what you don't need any longer so we can provide a clear scope of work.

Non-Billable Account Manager/Advisor

Uniquely, Innovia Consulting hires experienced industry veterans to its customer engagement team. Many of them have held senior management roles at companies like yours. They are a free resource to bounce ideas off and consult on the right next moves for your business.

Microsoft 365 Integrations

Since your system comes from Microsoft, you can count on full-featured integration with applications you know and love like Outlook, Excel, Teams, and more! Innovia is experienced at configuring these integrations for you and can help you choose the right packages for your business.

Upgrade All Your Operations with Microsoft Dynamics 365 Business Central

With the power of Microsoft technology, you can access your data anywhere, anytime, and from any device. Using Microsoft Azure technology, your ERP becomes your go-to source for data and is always accessible right from the palm of your hand.

Streamlined Updates

Business Central handles updates in a non-intrusive manner, meaning less downtime and more productivity, and Innovia is there every step of the way to guide you through the process.

Smart, Simple Integrations

It's not just Microsoft 365! If you want great reporting from Power BI, low-code custom apps from Power Apps, or easily configurable automations with Power Automate, you can get them all with Microsoft and tie them to your ERP for a seamless experience.

Room to Grow

Microsoft is constantly expanding the feature set of Business Central. Innovia Consulting's experts keep up with all the changes and let you know when you might want to consider adding a new option to your system.

Customer Success: OMT-Veyhl

“My life is so much easier. Because I run all the technology for the business from the internet to phone to software solutions, to know I have a team in Innovia that I can call on 24/7 if something comes up that we can't solve ourselves means I can sleep a lot sounder at night.”

- Rik Fleming, Director of Technology

Increased Reporting Capability

Innovia Consulting helped OMT-Veyhl build the reporting solution that would help them know exactly what's happening and track the most important factors for its business through the combined power of Dynamics 365 Business Central, Power BI, and the Jet Reports add-on.

IT Team Trained for In-House Support

With help from Innovia, OMT-Veyhl trained its internal team to provide first line support to its users, reducing its reliance on outside vendors. With its dedicated support team, Innovia stands ready to respond to escalated issues.

Reduced Labor Costs Associated with Product/Shipping by 30%

Through increased efficiency and the reduction of bottlenecks, OMT-Veyhl was able to reduce its labor costs to increase profitability.
