## Dynamics 365 Business Central Implementation for Manufacturers

[\[https://www.innovia.com\]](https://www.innovia.com)

# The Data Manufacturers Need: Anywhere and Anytime!

With the ever-growing complexity of the economy and moves toward Lean operations to keep profits up, keeping up with inventory, production, and reporting can be challenging. That's why manufacturers need a modern, cloud-based ERP solution that helps them stay on track from top to bottom.

## CHALLENGES

Factors like increased competition, a push toward remote collaboration, and an accelerated pace of technological change are pushing businesses to decrease overhead, eliminate waste, and maximize production.

## IDEAL SOLUTION

To respond, they need a single source of truth for business information that is flexible enough to meet any challenge but stable enough to keep production moving no matter what.

## DESIRED OUTCOMES

Implementing Dynamics 365 Business Central with Innovia's industry-leading consultants can help manufacturers identify where problems lie so they can address them proactively.

# Innovia Consulting

## Dynamics 365 Business Central Implementation for Manufacturers

Innovia is a Partner You Can Trust. We have helped businesses of all sizes implement the modern, full-featured Dynamics 365 Business Central ERP system.

### Planning Engagement

We take the time to get to know clients' existing software and processes. Our consultants visit on-site to walk through everything they want out of a new ERP system so we can provide a clear scope of work.

### Non-Billable Account Manager/Advisor

Uniquely, Innovia Consulting hires experienced industry veterans to its customer engagement team. Many of them have held senior management roles. They are a free resource for clients to bounce ideas off and consult on the right next moves for their businesses.

### Microsoft 365 Integrations

Innovia is experienced at configuring integrations with the full gamut of Microsoft tools, including Outlook, Excel, Teams, and more! Because Innovia knows Business Central and Microsoft 365, it is well-positioned to help companies optimize their use together.

# Streamline Operations with Microsoft Dynamics 365 Business Central

With the power of Microsoft technology, Innovia clients can access their data anywhere, anytime, and from any device. Using Microsoft Azure technology, their ERP systems become go-to sources for data, right from the palm of their hands.

## 24/7 Support

Innovia has an internal support team dedicated to helping customers respond to any issues that come up, day or night. We can help them with ERP configurations, server issues, updates, and much more.

## Smart, Simple Integrations

We don't stop at Microsoft 365! Innovia provides support for Power BI, Power Apps, and Power Automate, so clients can tie them to their ERP systems for a seamless experience.

## Room to Grow

Because Microsoft is constantly expanding the feature set of Business Central, Innovia Consulting's experts keep up with all the changes and let clients know when they might consider adding an option to their systems.

# Customer Success: OMT-Veyhl

“My life is so much easier. Because I run all the technology for the business from the internet to phone to software solutions, to know I have a team in Innovia that I can call on 24/7 if something comes up that we can't solve ourselves means I can sleep a lot sounder at night.”

- Rik Fleming, Director of Technology

## Increased Reporting Capability

Innovia Consulting helped OMT-Veyhl build the reporting solution that would help them know exactly what's happening and track the most important factors for its business through the combined power of Dynamics 365 Business Central, Power BI, and the Jet Reports add-on.

## IT Team Trained for In-House Support

With help from Innovia, OMT-Veyhl trained its internal team to provide first line support to its users, reducing its reliance on outside vendors. With its dedicated support team, Innovia stands ready to respond to escalated issues.

## Reduced Labor Costs Associated with Product/Shipping by 30%

Through increased efficiency and the reduction of bottlenecks, OMT-Veyhl was able to reduce its labor costs to increase profitability.
