

# Need to use Qlik datasets in other applications or databases?

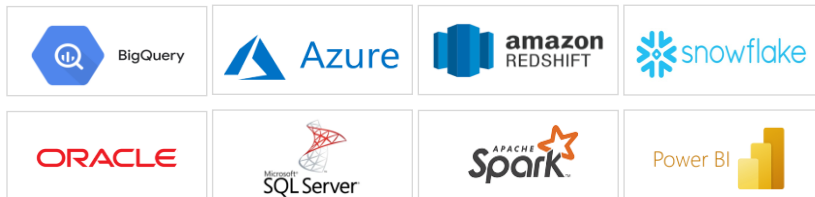

Operationalize already modelled Qlik data with full or delta loads to your target DB of choice

The BI Connector is a unique, simple, and effective solution for any external applications or processes to use Qlik datasets as data sources.

This connector simplifies either the connection or the migration process to integrate Qlik dataset into flat files, database tables, or Power BI in parallel to your current processes and without any downtime.

Seamlessly load QVD data into target databases such as:

The BI Connector is the only tool on the market that allows you to use your Qlik data in other BI tools or applications with all associations and transformations intact.

## Start using the BI Connector

SMB	Enterprise
<ul style="list-style-type: none"> <li>✓ All targets are available</li> <li>✓ Full load replace/append QVDs of up to 1.000.000 rows</li> </ul> <p>1 year Subscription</p> <p><b>\$499</b> USD/month</p>	<ul style="list-style-type: none"> <li>✓ All targets are available</li> <li>✓ Full load replace/append</li> <li>✓ Incremental Loads</li> <li>✓ Job Scheduler</li> <li>✓ No limits to QVDs size</li> <li>✓ Training Session</li> </ul> <p>1 year Subscription</p> <p><b>\$989</b> USD/month</p>
