

Imagine what the future of your Cooperative will be like

Our experts are here to help you solve key business challenges such as:

- Activating the digital sale of commodities.
- Building a resilient and traceable supply chain.
- Enabling digital producer assistance services.
- Managing the financial sustainability of the Cooperative.
- Innovating with Applications and Artificial Intelligence.

The Future of Agricultural Cooperatives.

The agro segment is rapidly transforming and connecting with its consumers in an innovative way, which is creating a need for more efficient responses, sustainable supply chains, responsible practices and a growing demand for new skills of workers. This is leading the Cooperatives to create new business models and rethink the entire value chain, from the field to the consumer table.

In this new reality, how do you see the future state of your organization? Build your transformation strategy with Microsoft Catalyst, a proven and powerful approach to innovation.

Let's idealize together

As part of Catalyst, meet with our experts and hold a vision workshop where we can idealize together, using design-driven thinking concepts and define together how to enable your organization's digital transformation. This one-day briefing begins with a review of your business objectives, followed by mutual discovery and visualization of solutions, ending with a clear and actionable picture of how we can help you achieve your business goals.

How Nexer can help you

We have helped in the modernization of Cooperatives, Tradings, Production Resales and Agroindustry with the adoption of innovative business management tools, connecting these organizations to thousands of Rural Producers.

What is Microsoft Catalyst?

Build, plan, and execute business transformation strategies with a proven and innovative approach from Microsoft Catalyst - a forecasting and planning program that employs Microsoft Dynamics 365, the Microsoft Power Platform, and the Microsoft Cloud.

Your business transformation begins with an I.D.E.A. Start by finding the transformation strategy that's right for you. Define and prioritize your strategy using development activities, then promote idealization, and drive decision making with a planning workshop.
