

Managed Endpoint for Windows 365

Expert care for your Windows 365 Cloud PC solution

Business challenge

Leveraging the power and convenience of Windows 365 Cloud PC is an attractive option, but fitting it into the overall endpoint management solution requires planning and maintenance. Managing various endpoints whether physical or virtual is an arduous task that can decimate time and productivity for IT teams.

Our solution

Insight can help you plan, implement and maintain Windows 365™ for your organization. As a perpetual virtual desktop, Windows 365 can fit nicely into your larger family of endpoints and be managed by our experts each day.

Our Managed Endpoint for Windows 365 solution will provide:

Expert planning, configuration and deployment of Windows 365

Changes to user profiles, groups and policies

Windows® image updates and management

Integration with Intune® and device reporting

Advanced reporting of virtual machine performance and resource utilization

Benefits

- + Improve bandwidth for IT resources.
- + Leverage modern cloud PC benefits and flexibility.
- + Establish and grow path to modernization.
- + Lower costs while improving employee satisfaction.
