# Microsoft 365 Copilot Takeoff

## Insight Takeoff makes landing Copilot in your organisation easy

### Business challenge

Microsoft 365 Copilot makes “everyday AI” possible in your organisation by leveraging the power of your Microsoft 365 environment to enable your end users to be more skilled, creative and productive. Are you ready to take off with Copilot but concerned about your organisation's readiness for the first day?

Insight's Microsoft 365 Copilot Takeoff service is here to help you succeed with the AI Copilot that works alongside you, embedded in the Microsoft 365 apps your team use daily, including Microsoft Teams, Word, Excel, PowerPoint, Outlook, Loop, and more.

Our service is designed to ensure maximum impact and successful use from day one by providing end-user adoption, change management, and on-boarding resources. With our help, you can seamlessly integrate Microsoft 365 Copilot into your current workflows, teams, and other business data, apps, and services.

### Takeoff on Day One

Insight's Microsoft 365 Copilot Takeoff service is designed to help organisations deploy Microsoft 365 Copilot with maximum impact and successful use from day one. Through end-user adoption, change management, and on boarding resources we ensure seamless integration to your current workflows, teams and other business data, apps, and services.

### What you can expect

- End-user adoption: We provide resources and support to help your employees adopt and use Microsoft 365 Copilot effectively.

These stages are designed to ensure that your organisation is fully prepared for the deployment and implementation of Microsoft 365 Copilot, and that the transition is as smooth and successful as possible.

### Preparation

Assess your current productivity setup and readiness to utilise Microsoft 365 Copilot features including an evaluation of your M365 configuration, settings, and policies, as well as an outline of steps for optimisation and change management.

### Planning

We will provide a detailed report and implementation roadmap. This roadmap will detail the necessary changes to your current productivity setup and provide employee training guidance for effective use of new Co-Pilot features and capabilities.

### Consultation

A comprehensive service offering that includes an initial consultation to discuss the assessment and implementation roadmap. Our team of experts will provide guidance on implementing the roadmap recommendations.

### Deployment

Integrate Microsoft 365 Copilot into your current workflows, teams, and other business data, apps, and services.

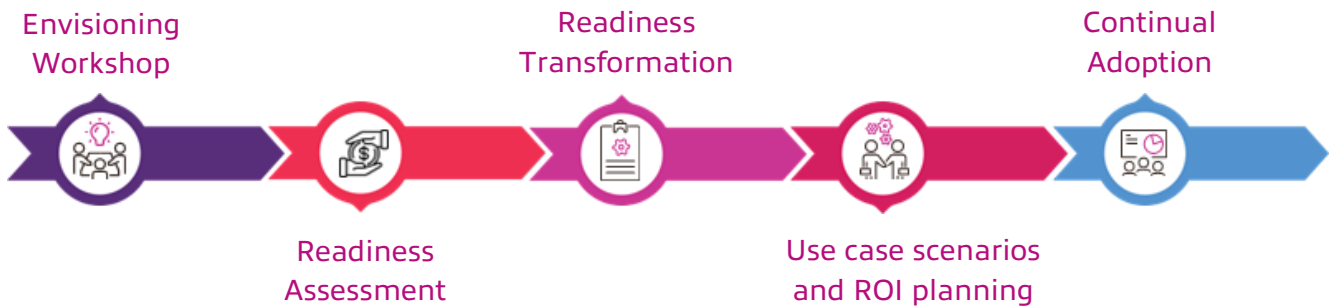

### Adoption

Insight will provide resources and support to help your employees adopt and use Microsoft 365 Copilot effectively.

### Change Management & Adoption

Insight will work with you to manage the transition to Microsoft 365 Copilot, minimising disruption to your business.
