# Microsoft 365 Envisioning Workshop

## Discover and unlock the value Copilot can bring to your business

### Business challenge

In today's dynamic yet competitive business environment, organisations are looking how best to take advantage of the power of AI to improve the way they do business. The promises of improved productivity, efficiency and creativity have to be balanced with mitigating the risks of AI. Introducing AI within any organisation requires careful planning, preparation and readiness to deliver the gains promised without increasing associated security risks.

### Prepare for the future of productivity

Insight's Microsoft experts will help you accelerate your time-to-value by helping your organisation mitigate the risks, build a comprehensive plan to deploy and adopt Microsoft 365 Copilot.

### What you can expect

The envisioning workshop is delivered over two days and will provide:

- An overview of Microsoft 365 Copilot capabilities, including product demos and Microsoft's approach to responsible AI.
- A review of technical requirements and what's needed to get your organisation AI-ready.
- Identification of key stakeholders and prioritised business scenarios
- An overview assessment of your organization's current readiness
- A recommended roadmap and proposed next steps

### Who should attend

Whether your organisation is ready to invest in Microsoft 365 Copilot or is just curious about what this solution can do, it is recommended your executive leadership across key functional business areas, IT and security participate.

*Terms, conditions and pricing are custom to each engagement and Microsoft funding may be available to cover all costs.*

### Duration:

2 days

### Workshop highlights:

- Discover the capabilities, use cases and benefits of Microsoft 365 Copilot
- Gain a comprehensive understanding of your readiness and the steps you need to take to prepare for Microsoft 365 Copilot along with a customised success plan, roadmap and recommended adoption and change management approach for your organisation.
- Discover how to amplify human ingenuity and innovation within your organisation with an AI Copilot that works alongside you, embedded in the Microsoft 365 apps your team use daily, including Microsoft Teams, Word, Excel, PowerPoint, Outlook, Loop, and more.

### Art of the Possible

Overview and understanding of Microsoft 365 Copilot technology and apps and discussions of the “art of the possible”.

### Assess

Discuss deliverables, identify stakeholders, and gather information on key scenarios. Complete assessment, review scorecard, and share next steps.

### Build the Plan

Develop a plan to implement recommendations based on prioritised scenarios, define next steps, timeline to develop and implement the solution.

### Workshop audience

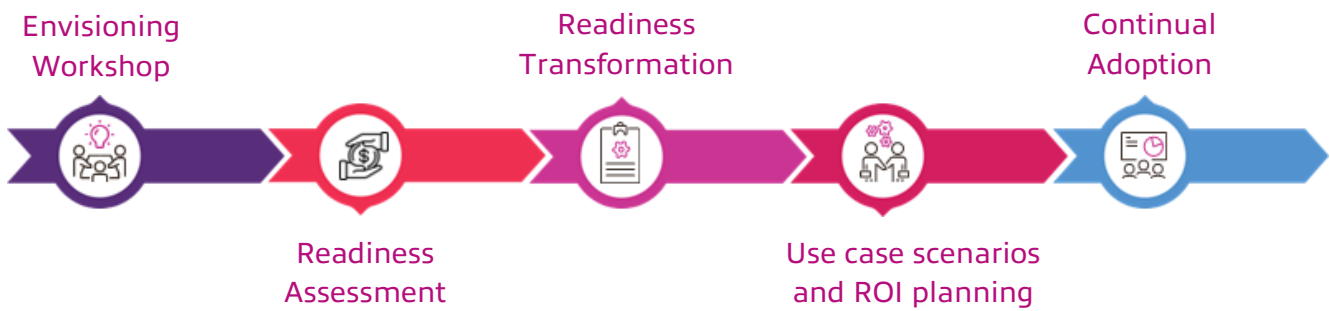

Executive leadership with representation from IT (including CISO), employee services and line of business leaders

### Timing

Workshop meetings are conducted over two days. The final report-out takes place within 1-week of the envisioning workshop.
