

Solution Brief

Insight's Microsoft 365 Copilot Envisioning Workshop.

Discover the power and value AI can bring to your business

In today's dynamic yet competitive business environment, organisations are looking how best to take advantage of the power of AI to improve the way they do business. The promises of improved productivity, efficiency and creativity have to be balanced with mitigating the risks of AI. Introducing AI within any organisation requires careful planning, preparation and readiness to deliver the gains promised without increasing associated security risks.

Prepare for the future of productivity

Insight's Microsoft experts will help you accelerate your time-to-value by helping your organisation mitigate the risks, build a comprehensive plan to deploy and adopt Microsoft M365 Copilot.

What you can expect

The envisioning workshop is delivered in one day and will provide:

- An overview of Microsoft 365 Copilot capabilities, including product demos and Microsoft's approach to responsible AI.
- A review of technical requirements and what's needed to get your organisation AI-ready.
- Identification of key stakeholders and prioritised business scenarios
- An overview assessment of your organization's current readiness
- A recommended roadmap and proposed next steps

Who should attend?

To get the most out of the envisioning workshop, it is recommended your executive leadership across key functional business areas, IT and security participate.

Our partner  Microsoft
