

Solution Brief

# Microsoft Teams Meetings Proof of Concept

## Business challenge

With much of the workforce divided between remote and premise-based work, the landscape of how we collaborate has drastically changed. Users want the ability to flex between remote and premise-based workflows seamlessly. To meet this modern work preference, your organization must adjust its collaboration strategy and tool sets. Using the smart features in Microsoft Teams® allows people to stay focused before, during and after meetings, so your teams save time and accomplish more together.

## How we help

Insight's Microsoft Teams Meetings Proof of Concept (PoC) allows your team to have a hands-on experience with Microsoft Teams Meetings. This is a cost-effective and efficient way to evaluate Teams Meetings without disrupting your current environment. The PoC will enable you to identify risks and gaps that will accelerate your deployment to Microsoft Teams Meetings.

**Our team of Microsoft® experts will guide you through the initial configuration and setup to enable Microsoft Teams Meetings for your organization. This includes:**

- Configuration of Microsoft Teams Meetings
- Enablement of audio conferencing for all users
- Design and configuration of five Microsoft Teams Rooms
- Post-PoC half-day workshop to discuss findings and develop roadmap and recommendations for deploying Microsoft Teams Meetings and Teams Rooms

## Duration

+ Four days
