

Security Express Assessment

An agile Cybersecurity assessment for clients

Business challenge

Complex security environments leave many organisations unable to quickly identify, assess and mitigate security risks in the overall threat landscape. Many organisations are unsure of their security posture and have little or no visibility of compliance to their current or mandated controls.

Running a Microsoft Security Express Assessment sets a pathway for organisations to align their security priorities with a best practice treatment recommendations and governance roadmap that provides a strategic understanding of user impact and business risk associated with each implementation activity.

How we help

The Security Express Assessment gives you an analysis of your organisation's security posture – evaluating vulnerabilities, identity, and compliance risks with remediation recommendations. Upon completion of the security assessment, Insight's security specialists will evaluate your current security posture against the Microsoft Zero Trust Security Model and CISv8* controls and provide an action plan to address gaps and improve security posture to achieve desired or mandated maturity level.

In this engagement we will review on-premise and cloud systems including:

- All endpoints including desktops, laptops and servers
- Microsoft 365
- SharePoint
- Azure Advisor
- Azure Active Directory
- Security Questionnaire

*CISv8 - CIS **Critical Security Controls Version 8** are a prioritised set of Safeguards to mitigate the most prevalent cyber-attacks against systems and networks. They are mapped to and referenced by multiple legal, regulatory, and policy frameworks.

Duration

- 1 day

Benefits

- Uncover your risks and vulnerabilities to identify mitigation strategies
- Work with specialist Security Partners to deliver knowledge and guidance
- Accelerate your cybersecurity protection via specific recommendations
- Drive clear understanding with a remediation Road Map and action plan to address gaps, improve security posture and reach the desired or mandated security maturity level

INSIGHT AWARDS

- 2021 Worldwide Partner of the Year in Solution Assessments and Azure Migration
- Microsoft Solutions Partner for all Solutions Areas
