

Microsoft Teams Maturity Assessment

Identify the roadmap to achieving your desired level of governance on the Microsoft platform

Business challenge

Microsoft 365, and especially Microsoft Teams, has exploded in popularity due to the recent unprecedented demand for remote working. Many organisations have therefore been forced to rapidly enable Teams and other Microsoft 365 services with less planning and governance controls implemented than desired.

This can lead to large sprawling information architectures, limited ownership and accountability, silos, and inconsistencies. It can also present significant risks from an information security and compliance perspective.

How we help

After supporting many organisations improve practises in managing and operating Microsoft 365, Insight has distilled common problems and solutions into our Microsoft Teams Maturity Assessment. This is a workshop-led engagement that:

- Plots out the current maturity level for an organisation across several governance axes
- Defines a target maturity level and timeframe for each axis
- Provides a structured, prioritised, and actionable roadmap of activities to get there

Key Deliverables

Insight delivers the Microsoft Teams Maturity Assessment using a proven approach, and IP developed over the course of consulting and implementing Microsoft 365 solutions for many organisations. It comprises of an initial workshop, two core deliverables, and a final walkthrough.

Duration

- 1 - 2 weeks

Benefits

- **Increased understanding** of the various Microsoft 365 and Teams governance areas
- **Clear and objective** measure of the organisation's maturity
- **Define a target maturity level** and timeframe for achieving this
- **Possess a clear roadmap** of specific actionable improvements that will enable the targeted maturity requirements
- **Maximise** your Microsoft cloud ROI and accelerate your cloud journey

Maturity Assessment Overview

Maturity Assessment Workshop and Report	Maturity Roadmap and Walkthrough
We will begin by leading your team through the assessment process to identify existing processes and controls, assess current maturity and understand your goals to improve maturity and timeframes requirements. From the workshop, we will provide a report based on the content and decisions captured.	Following this we will share a detailed roadmap that prescribes the actionable next steps to undertake and guidance on how to execute in order to increase your maturity across various governance axes. We will present this back to your team to ensure you are familiar with the findings & recommended next steps.

Add-on: Ongoing Service

Monthly Advisory and Implementation Service
Insight's team of Microsoft 365 strategic, technical, and adoption specialists can assist with the fulfillment of your maturity roadmap. Insight recommends that the roadmap be implemented and evolved iteratively, and on a month-by-month basis.
