Microsoft Viva Connections Enablement

Business challenge

Microsoft's Viva® Connections is a curated, company-branded modern intranet experience that brings together relevant news, conversations, and resources in apps and devices used every day. No matter the state of your current solution, it can be difficult to know where to begin when undertaking the task of implementing or modernizing your intranet.

How we help

Insight's Microsoft Viva Connections Enablement will set your organization up for success through a four-week professional services engagement led by experts focused on the unique needs of your organization.

Our experts will guide you through Viva Connections deployment beginning with an Employee Experience With Microsoft Workshop, and moving to discovery and design, configuration and adoption to leave you with a configured solution and long-term roadmap for success with Viva Connections.

What to expect

Weeks 1 and 2

Employee Experience With Microsoft Viva Workshop

Discovery and design of your Microsoft® Viva home site, related subsites and features

Weeks 3 and 4

Configuration of a Viva Connections home site, subsites dashboard and adaptive cards, permissions and audience targeting, and the Viva Connections app in Teams®

Development of an adoption plan and draft communications and awareness content

Deliverables

- Viva Connections configuration and deployment plan and roadmap
- Fully configured Viva Connections home site and up to 5 subsites or pages for the Viva Connections feed
- Adoption plan, draft communications and recommended training

Four-week professional services engagement including project management ~$50,000

Benefits

- Deploy Viva Connections with core features and functionality.
- Develop a roadmap for migration of content and deployment of features.
- Be prepared to help your content managers and end users adopt Viva Connections.

Insight helps you manage business today and transform the future.
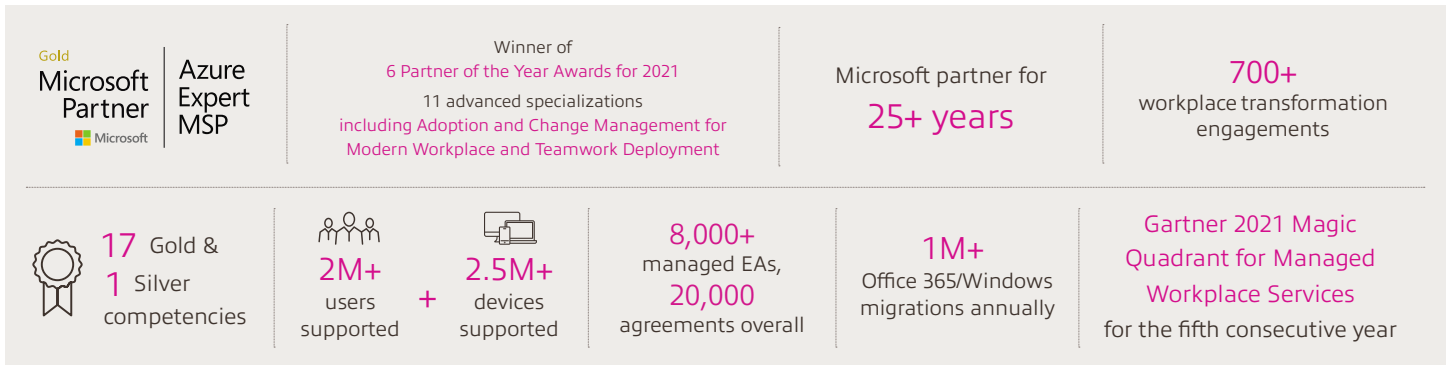

Service limits and requirements

Insight will configure a Viva Connections home site and up to five templated subsites or pages for the Viva Connections feed.

All planning, discovery and use cases will use Viva Connections/SharePoint® Online out-of-the-box functionality, including templates, webparts and Teams® apps.

Clients must have a minimum of Office 365® E3 licensing deployed at the time of the engagement.
