

INSIGHT Business Solutions, a Microsoft Gold Partner, is a Business Technology Consulting Firm. We pride ourselves in helping our clients in Financial Consolidation, Increasing Revenue and Decreasing Costs through the sharing of our vast consulting experience and the use of leading Business Software Solutions.

Today, our reputation is as important as it ever was. We have succeeded in achieving the goals we set forth so many years ago and building the culture we imagined. Our team has grown significantly and our commitment to providing leading business solutions for all our clients is stronger than ever.

## DESCRIPTION

Dynamics 365 for Finance and Operations has a number of modules that cater for many industries including; Financials, Supply Chain Management, Manufacturing, Service Management, Asset Management, Project Accounting, to name a few. This POC is designed to show you the system for ease of use, for the comprehensiveness of the features and capabilities.

In order to reach a successful completion of the POC, the suggested plan is the following:

- The POC is on the financials and supply chain.
- Provide us with a limited number of customers, vendors & items.
- Provide us with a set of business processes that you would like to see.
- We will review and study this material. We will then provide you with our feedback.
- Agree on the POC rules of engagement.
- Create the instance on the Microsoft Dynamics cloud. Setup and make it ready.
- For a period of 1 week, you will test the system based on the agreed criteria, producing transactions & reports. Our consultant will be onsite with you.

In two weeks offsite, INSIGHT will prepare the POC environment. In five days onsite, INSIGHT will manage the workshop with you, giving you the perspective of your operation that you may never have seen before.

This consulting service has a cost of \$12,000 ++. Should the POC be successful and you decide to move forward with the project with us at INSIGHT Business Solutions, the above quotation will be discounted from the project.
