

Rapid Migration Solution Assessment

A Rapid Migration Solution Assessment helps clients modernize their server and data center environments and prioritize their workloads and applications to transition to the cloud. It will also assess current deployments and determine optimal usage on premises or in the cloud, highlighting lift/shift migrations to Azure®.

Client profile

The following clients would benefit from this assessment:

- Want to move to Azure, but don't know where to start
- Want to start migrating their infrastructure and databases
- Have Win/SQL Server® EOS license with AS
- Large RDS, Citrix, or Horizon clients with a significant on-premises footprint
- Need to rapidly exit their data center and reduce modernization effort
- Want to avoid ESU costs
- Cannot move to native Azure VMs for compatibility reasons
- Want to know app services migration candidates

Insight scope

- OS and SQL End of Support
- Performance Metrics for Servers and SQL
- Dependency Mapping (NetStat)
- Cloud Sizing (IaaS)
- Managed Disks Sizing
- Azure Readiness and App Services Sizing

Cost

Varies

Duration

3-6 weeks

Benefits

- + Prioritize workloads and applications for migration.
- + Modernize your infrastructure and data center environments.
- + Determine optimal cloud vs. on-premises usage.
- + Minimize migration costs.

Tool used

Azure Migrate

Sample outputs

Operating System Lifecycle

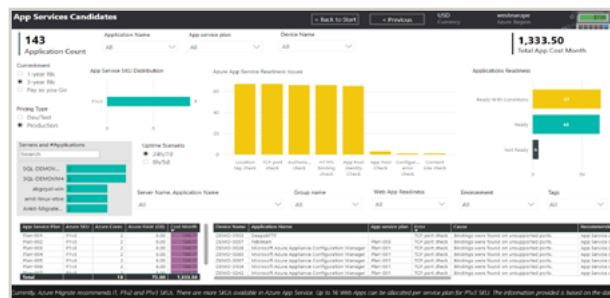

SQL Overview

Azure Projections

App Services Sizing

Driving innovation with digital transformation

At Insight, we help clients enable innovation with an approach that spans people, processes, and technologies. We believe the best path to digital transformation is integrative, responsive, and proactively aligned to industry demands. Our client-focused approach delivers best-fit solutions across a scope of services, including the modern workplace, modern applications, modern infrastructures, the intelligent edge, cybersecurity, and data and AI.
