

Solution Brief

Next Gen Endpoint Workshop

Hybrid work and transformational end-user computing experiences

Overview

Modern endpoint management protects the organisation while enabling employees to work on their terms. They can work anywhere and at any time and do so as well as they would in the office, thus improving satisfaction and productivity.

Forrester 2021 The Total Economic Impact™ Of Modernizing Endpoints*

In our new world of work, the endpoint is the new workplace, and hybrid work drives the endpoint strategy. The shift to remote and hybrid work represents how we think about providing people with the tools they need.

Most organisations, **90%** anticipate seeing more usage on cloud platforms than ever before. As a result, optimising existing investments in cloud solutions remains a top priority.

Many organisations, **77%** of those surveyed, agree on the importance of providing the latest technology to their employees, giving users the devices they want while giving IT the capability to keep them secure.

Lastly, **80%** of companies plan to invest in new and emerging technologies, opening the conversation on the most efficient way to deploy, manage, and secure these new endpoints.

*A commissioned study conducted by Forrester Consulting™ on behalf of Microsoft, Sept 2021

What to expect

The next generation of endpoints represents a shift in how organisations solve end-user computing challenges. Across Information Workers, Frontline Workers, and Temporary / Elastic workforces, organisations are looking for the latest and most innovative solutions to answer those challenges.

We'll work with you to:

Better understand when and how to leverage Cloud PCs with Windows 365	How best to manage virtual endpoints across Windows 365 and Azure Virtual Desktop	Leveraging Windows 11, the most secure OS yet, to enable hybrid work for all employees	Implementing best practices for endpoint management with Microsoft Endpoint Manager

Solutions covered include Windows 365, Windows running on Azure Virtual Desktop, Microsoft Managed Desktop, Windows 11 Enterprise and Microsoft Endpoint Manager.

Business outcomes

	Focus	Focus on priorities, initiatives and key influences in your hybrid work and end-user computing strategy
	Learn	Learn about end-user computing strategies, Windows 11, and Windows 365 to drive endpoint modernisation with your customers
	Work	Work together on showcasing Cloud PC provisioning and management with Windows 365 in a production environment
	Plan	Plan next steps on how we can work together

Why Insight?

Today, technology isn't just supporting the business; it's becoming the business. At Insight, we help you navigate complex challenges to develop new solutions and processes. We will help you manage today's priorities and prepare for tomorrow's needs.

Global scale & coverage	Operational excellence & systems	Software DNA	Services Solutions	Data centre transformation	Next-generation tech skills	App dev & IoT expertise	Insight Digital Workspace™	Partner alignment
