Jet Analytics

Corporate BI and Reporting from Anywhere

Jet Analytics delivers fast, flexible dashboards and reports in Excel, Power BI, and in the browser. Now you can bring all your data together in one place to enable everyone in the organization to easily perform sophisticated business analysis from anywhere, without technical expertise. Empower users to make better decisions, faster.

Turn Data into Insight Immediately with Jet Analytics

Ensure Consistent and Accurate Analytics

Establish a system of record that includes historical data and multiple data sources and guarantees that everyone is using the same information to run their reports.

- Data preparation, automation, and modeling for fast, consistent analytics
- Governed data that everyone in the business can rely on
- Seamlessly connect and consolidate multiple data sources for one version of the truth
- Build shared dimension structures and facilitate drill-across analysis
- Track data changes over time to enable historical reporting

Built for your ERP and your business

Combine all of your data into a data warehouse, customizable cubes, and Tabular Models to create a single source of truth to underpin all your reporting and analytics.

- Microsoft Dynamics 365 for Finance and Supply Chain Management
- Microsoft Dynamics 365 Business Central
- Microsoft Dynamics AX
- Microsoft Dynamics NAV
- Microsoft Dynamics GP
- Connect and bring together an unlimited number of additional SQL data sources

Reduce Total Cost of Ownership

User-friendly data preparation, automation, and modeling tools to support all your reporting and analytics needs.

- BI customization that is five times faster than traditional BI methodology or manual coding
- Includes an unlimited number of users
- No SQL coding required, reducing your dependency on experts or scarce third-party consultants
- Eliminates the need to understand the underlying data structure
- Less risk, faster ROI

Enable Self-Service Reporting and Analytics

Establish a system of record that includes historical data and multiple data sources and guarantees that everyone is using the same information to run their reports.

- Gain valuable business insight from day one
- Build and share dashboards within minutes
- Extensive report and dashboard template library
- View data inside Excel or Microsoft Power BI
- Access dashboards and reports from any web browser through the Jet Hub

Drive Reporting Performance

Build cohesion and improve team output with a complete data preparation, automation, and modeling tool, and BI customization platform that is five times faster than manual coding.

- Turnkey installation in hours, not months
- Pre-built OLAP cubes, Tabular Models, and a data warehouse
- Boost refresh times with star schemas, Tabular Models and OLAP cubes
- Eliminate bottlenecks with ready-available query evaluation and database performance enhancing tools
- Leverage incremental refresh to optimize systems usage
