

# Secure Remote Work Workshop

**Implement remote work — rapidly and securely.**

## Business challenge

In 2018, more than 2/3 of global employees worked remotely every week and 50% did so for at least half of the week.<sup>1</sup> In 2020, we've seen the trend towards remote work accelerate faster than anyone could have predicted. The modern workplace has experienced a drastic shift and the demand for technologies that enable remote connection has never been higher.

Remote work enables millions of employees around the world to stay productive, no matter where they work. With a secure remote work program, organizations can maintain business continuity when faced with unforeseen circumstances that may uproot the workforce.

## Our solution

Enable your team to work from anywhere with Insight's Remote Work Workshop. This one-day workshop explores the most critical steps for remote work and how to rapidly deploy key scenarios.

In just one day, you'll learn how to evaluate your options and develop a concrete deployment plan. You'll also learn how to use Microsoft® technologies to:

### Keep people connected anywhere

- Enable people to meet and collaborate from home.
- Engage people with virtual events and communications.
- Make productivity applications available on any device.

### Maintain security and control

- Enable cloud identities with single sign-on and self-service password reset.
- Gain secure, remote access to Microsoft Teams®.

## Benefits

- Ensure secure access to Teams.
- Improve user adoption of Teams.
- Learn rapid deployment approach for Teams.
- Understand how to enable cloud or hybrid identity.

## Workshop highlights

Evaluate your remote work options and business implications in one workshop.

Enable remote work as quickly as possible now — consider advanced options later.

A single-day workshop leaves you with a concrete deployment plan, timelines and next steps.

## What you can expect

**When you attend this workshop, you'll leave with a detailed deployment plan including:**

- An environmental & workload analysis, paired with a security assessment
- Recommendations to deploy hybrid identity, Microsoft Teams® and security
- Technical guide for advanced remote work scenarios
- Identification of potential roadblocks and challenges

## A true end-to-end partner
