

Free cloud assessment

Get ready for your cloud journey with a step-by-step roadmap.

The question is no longer whether your company should move to Cloud – the question is when and how. Right now, we are offering a free cloud assessment that provides the clarification you need to move to the cloud:

- What is your cloud potential?
- How do you get the best out of your options?
- What is the price (TCO)?
- How do we handle the journey?

All insights and recommendations are brought together in a simple and clear report.

Scalable, flexible, fast, and secure

Cloud assessment:

Who, what, why?

The decision has already been taken: You are moving to the cloud. But you need to cover the potential, expenses, and especially the savings – now, and the coming years – that relate to moving to the cloud.

Solution: free Cloud Assessment report.

Our Cloud Assessment is made for companies like yours that have chosen to join the cloud and now wish to have an extended basis for the decision of how you achieve a cloud-setup that matches your needs and finances.

The process

1. We will get secure access to systems
2. We monitor your cloud-setup for around 2-4 weeks
3. You get a free Cloud Assessment report with recommendations for a concrete plan of moving to the cloud.

If you choose to move to the cloud within a few months, we can help you with the journey for a favourable price.

We will see to that everything happens as planned and that your “knowledge & data transfer” happens optimally, even after the move has happened.

What does your Cloud Assessment report include?

In the Cloud Assessment report, you gain knowledge about:

- **Data collection:** Current setup vs. Future wishes
- **Analysis:** TCO (Total Cost of Ownership), optimization, and benefits
- **A plan for the move:** Economics, ROI-analysis, time schedule, roles, Governance, documentation & PoC
