

Threat Protection Envisioning Workshop

Learn how to put next-generation Microsoft Security tools to work for you.

Engagement highlights

Review your security goals and objectives

Identify real threats and discover vulnerabilities in your environment

Map identified threats and vulnerabilities to specific solution recommendations

Develop joint plans and next steps

Do you know how many phishing attacks your organization has received? How confident are you that your organizational identities are secure and not vulnerable to exploitation? Whether there are any known vulnerabilities in your client or server devices? In short, is your organization's cloud environment as secure as you think it is?

Improve your security posture with a Threat Protection Envisioning Workshop

Organizations today are managing a growing volume of data and alerts while dealing with tight budgets and vulnerable legacy systems. Get help achieving your broader security objectives—and identify current and real threats—by scheduling a Threat Protection Envisioning Workshop.

We can help you develop a strategic plan customized for your organization and based on the recommendations of Microsoft experts in security. You'll gain visibility into immediate threats across email, identity, and data, plus clarity and support on how to remediate vulnerabilities and upgrade your security posture for the long term.

Why you should attend

Given the volume and complexity of identities, data, applications, devices, and infrastructure, it's essential to learn how secure your organization is right now, and how to mitigate and protect against threats moving forward. By attending this engagement, you can:

Identify current, ongoing security threats and discover vulnerabilities in your environment

Document your security strategy for the benefit of key stakeholders

Better understand how to accelerate your security journey using the latest Microsoft Security tools

Walk away with actionable next steps based on your specific needs and objectives

What to expect

During this engagement, we'll partner with you to strengthen your organization's approach to cybersecurity. We'll help you better understand how to prioritize and mitigate potential attacks, with:

- + Analysis of cybersecurity threats that are found targeting your organization.
- + Actionable recommendations to help immediately mitigate the identified threats and discovered vulnerabilities.
- + Visibility into vulnerabilities to your Microsoft 365 cloud and on-premises environments to better understand, prioritize and address vulnerabilities and misconfigurations across your organization.
- + Long-term recommendations from Microsoft experts about your security strategy, with key initiatives and tactical next steps.
- + Modular approach, allowing you to select three (3) out of six (6) available modules aligned to your needs and requirements.

Selectable Module

Unified SecOps Platform

Selectable Module

Email Protection

Selectable Module

Endpoint and Cloud Apps Protection

Selectable Module

Identity Protection

Selectable Module

Server Protection

Selectable Module

Identity Protection

Selectable Module

Microsoft Security Copilot Demonstration

Who should attend

The engagement is intended for security decision-makers such as:

- Chief Information Security Officer (CISO)
- Chief Information Officer (CIO)
- Chief Security Officer (CSO)
- IT Security Architects
- IT Security Administrators
- IT Security Operations (Sec Ops)

Why Inspira?

Inspira Enterprise is a global leader in Cybersecurity, Data Analytics and AI. We offer end-to-end security - from perimeter defense to incident response - supported by five **24/7 Cyber Fusion Centers** for global threat detection and mitigation. Inspira specializes on Microsoft security solutions, including Microsoft Defender Suite, Microsoft Purview, Microsoft Sentinel, and Microsoft 365 security features.

Our Managed Security Services align data strategies with business goals, driving resilience across people, processes and technology.
