Simplifying the Insurance Experience

Our scalable, highly secure and reliable cloud-based solutions provide cost-efficiency, flexibility and the strongest service levels in the industry. With Insurity's solutions, our clients can focus on their business – not their infrastructure.

Insurity Policy Solutions

Policy Decisions: A Comprehensive Policy System

Policy Decisions is a modern, core platform that supports the full policy lifecycle for highly automated or heavily underwritten products on one platform, serving all user types for all distribution channels. Feature-rich, Policy Decisions' robust content leads to speed, efficiency and reduced risk.

Bridge Specialty: Simplified Policy Administration to Keep Innovating

Specialty lines policies can be complex but configuring and administering them doesn't have to be. Bridge Specialty simplifies the entire journey of defining products and lines of business, from quoting to renewal.

Workers' CompXPress: Easily Delivers Business Efficiency

Workers' CompXPress is an integrated policy and billing system that allows clients to manage the entire lifecycle of a workers' compensation policy from application/quote to renewal or cancellation.

Insurity Integrated Suites

Decisions Suite & DecisionsXPRESS Suite: The Choice is Easy

We've put it all together - policy, billing and claims - in one, comprehensive, flexible platform. Decisions Suite is designed specifically to meet the operating needs of domestic carriers that offer multiple commercial insurance products, bureau-based and specialty, either standalone or as packaged programs.

Bridge Specialty Suite & BridgeXPRESS Suite: A Bridge to Growth Opportunities

Our Bridge Specialty Suite is a highly flexible, comprehensive policy, billing and claims solution for specialty lines of property and casualty insurance.

Workers' CompXPRESS Suite: The Market Leading All-in-One Workers' Compensation Solution

The Workers' CompXPRESS Suite offers the only digital workers' compensation center of excellence in the industry and has a perfect 100% installation-to-production success record over 20 years and 40+ clients.

Oceanwide Marine Suite: Comprehensive Global Platform

Designed specifically to meet the unique needs of - ocean marine insurers, brokers MGAs and policyholders, the Oceanwide Marine Suite is a global, multi-lingual, multi-currency, multi-company platform that allows all parties to collaborate in managing marine cargo insurance programs.

Insurity Claims Solutions

Claims Decisions: An Essential Tool for Claims

Claims Decisions is a complete claims administration system. For all standard P&C as well as specialty and custom lines of business, it may be the most valuable item in your claims toolbox.

ClaimsXPRESS: Strong, Swift and Scalable

In insurance, no interaction has a greater long-term business impact than a claim. It's the moment of truth for insurers and policyholders. ClaimsXPRESS maximizes insurers' opportunities to deliver simplified experiences that drive positive results.

Insurity Data & Analytics Solutions

DataHouse: Make the CIO Smile

Insurers are awash in data. It's often housed in silos, making it challenging to manage and access across the organization. Now's there's a solution that will make the CIO Smile.

DataHouseXPRESS

Drawing from the broadest and deepest data repositories in the industry based upon non-proprietary ACORD standards, DataHouseXPRESS delivers reporting and analytics insights beyond what is available from any other data solution in the property-casualty marketplace.

Valen Analytics InsureRight Platform

Whether you build predictive models internally or with a third party, there remains the equally important step of implementation and integration into a workflow where it will be used and measured.

Valen Data Consortium

Our data consortium totals \$67B in premium across all standard P/C lines and includes detailed, recent policy and claims data. Providing a broader and deeper view of the market significantly enhances the predictive power of models.

Digital Enablement

Digital technologies are transforming the world. At Insurity, we offer clients a proven digital platform that allows them to rethink how they do business – internally and externally.

DigitalXPerience Studio: Create Compelling Digital Customer Experiences

Get the data you need, when and where you want it, in an easily viewed form. The Insurity's DigitalXPerience Studio was purpose-built to analyze, manipulate and provide meaningful access to insurance data within Insurity's platform of applications.

Digital Services Platform: Scalable, Consistent and Flexible

With reliable, accurate and timely data, decision makers are at an advantage. Our digital platform is a unique system that uses standardized Application Programming Interfaces (APIs) to support data access, calculation and processing capabilities. Insurity's Digital Services Platform also enables clients and system integrators to build custom applications.

SaaS Offering: From Cloud to You - Delivering Our Best

Insurity's cloud leadership goes hand in glove with our Software as a Service offering, giving our insurance industry clients fast and secure access to the best solutions, through the most advanced technology infrastructure available.

Industry Content: Informed Decisions

Insurance organizations rely on a variety of external data to make informed decisions that shape products, pricing and services. Insurity brings a spectrum of industry content to our clients, so they can make better decisions about the risks they take on.

Services to Ensure Success

Insurity's solutions provide all the tools our clients need to enhance and grow their businesses. Our value-added services help ensure success with Insurity solutions.

Software Updates, Upgrades & Support

Insurity believes clients should benefit from the continuous addition of functionality and updates without major disruptive and costly upgrades. We deliver updates through non-disruptive methods, letting our clients choose when and how to receive them.

Implementation Services

Insurity has successfully launched over 150 implementations across insurance organizations of all sizes, with a multitude of cultures and internal resources. Our implementation services cover the full policy lifecycle, from implementation through production, including application development through testing, solution configuration, project management, client-specific and third-party integration services and data migration.

Cloud Hosting & Managed Services

Insurity's Hosting & Managed Services free clients to focus their resources on strategic business and IT initiatives. Our teams can manage all the daily functions associated with application and IT management.

Expert Services

Insurity's Insurance expertise and experience are the foundation of our extensive knowledge base, methodology

and creation process. Our expert services include advice on role-based experiences and journey mapping, testing for user acceptance, business process design and training & certification.

Bureau Content Management

More than ever, insurers must keep current with the growing number and complexity of regulatory changes. Today, several rating bureaus provide rates, rules and forms that standardize policies and pricing. However, virtually every carrier makes its own deviations to ISO or other bureau content in creating products. Insurity enables our clients to do this better for themselves or through our managed services. Our bureau content specialists can monitor, analyze, interpret and integrate, add to the system and merge with exceptions on behalf of our clients.

Compliance Reporting

Insurity helps insurers identify and comply with statistical reporting requirements. Insurity's compliance team handles all reporting to the relevant authorities on the client's behalf, including ISO, NCCI, NAII and independent bureaus, and makes available errors and corrections, submission tracking and other information via an online reporting system.

The Insurity Difference

Our approach to delivering industry-leading solutions is based in three fundamental areas: Speed to Value, Industry Expertise and Cloud Technology Leadership

Speed to Value

Insurity's proven platform and easy configuration tools increase speed to value, enabling our clients to respond to market conditions and makes changes quickly and efficiently.

Industry Expertise

In addition to offering market leading technology, our team of insurance-trained experts and deep understanding of the insurance business adds up to unmatched value for our clients

Cloud Technology Leadership

Flexibility, easy implementation and continuous innovation are all possible with Insurity's advanced cloud-based technology platform
